#### REQUEST FOR HISTORIC AND SCENIC PRESERVATION COMMISSION ACTION

#### V.C. TEKIN FAMILY TRUST. APPLICANT

(PROJECT PLANNER: IVAN FLORES)

**PUBLIC HEARING** to consider **Demolition No. 363** to demolish an approximately 1,860 square foot single family dwelling over 50 years of age located 110 Terracina Boulevard within the Agricultural District (A-1) (APN: 0293-141-32-0000). This project is exempt from the California Environmental Quality Act (CEQA) pursuant to Section 15301(L) (1) (Existing Facilities) of the CEQA Guidelines.

HISTORIC AND SCENIC PRESERVATION MEETING: January 06, 2022

Planner: Ivan Flores, Assistant Planner

Reviewed by: Loralee Farris, Historic Preservation Officer

#### PROCEDURE FOR PUBLIC HEARING

- 1. Chairperson declares the meeting open as a public hearing.
- Chairperson calls upon staff for report. 2.
- 3. Chairperson calls for questions/comments from members of the Commission.
- Chairperson calls upon applicant, or its representative, for comments/testimony. 4.
- 5. Chairperson calls for comments/questions/testimony from members of the public (3 minutes per speaker).
- 6. Chairperson calls upon the applicant, or representative, for rebuttal comments (5 minutes).
- 7. Chairperson closes the public hearing.
- 8. Commission considers the motion(s) and votes.

#### **SYNOPSIS**

1. Historic Designation: The structure is not designated as a historic resource, nor is

> it located within a historic district, negative by the City of Redlands, the State of California, or the United States

Government.

2. Existing Land Use: Zoning: Agricultural District (A-1)

General Plan: Very Low Density Residential

3. Historic and Scenic Preservation Commission submittal dates:

Historic and Scenic Preservation Commission Meeting: January 06, 2021 (C)

- 4. Attachments:
  - (A) Aerial Photographs
  - (B) Site Photographs
  - (C) Preliminary Environmental Checklist
  - (D) Resolution No. 2022-02 with Exhibit A (Conditions of Approval)

#### PROPOSAL / BACKGROUND

The applicant, Mike Tekin, has submitted an application to demolish the existing 1,860 square foot single family dwelling located at 110 Terracina Boulevard within the Agricultural District (A-1) (APN: 0293-141-32-0000). The single family dwelling is over 50 years of age. The property is improved with a single family dwelling, and ancillary orchards.

#### SUMMARY

The building permit history for this property has no documentation as to when the structure was built. Aerial images identify the structure on the property as early as 1959. Information provided by the applicant indicates that the structure was constructed in 1955 which is consistent with the period that the owner appeared in the City Directories, in 1961.

#### **ENVIRONMENTAL REVIEW**

City staff prepared a Preliminary Environmental Checklist for the proposed project in accordance with Section 15.44.060 of the Redlands Municipal Code which requires an environmental checklist be prepared for all demolition permit applications involving structures over fifty (50) years old. This checklist provides an environmental analysis of the project that confirms that, with the Commission's concurrence that the structure is not considered a "historic resources" nor an "eligible resource," that demolition of the structure would qualify for a Notice of Exemption pursuant to Section 15301 of the California Environmental Quality Act Guidelines.

Section 15301 (L) (1) of the California Environmental Quality Act states that the demolition and removal of individual small structure (one-single family residence) is exempt from environmental review. In addition, Section 15064.5 of the California Environmental Quality Act refers to the California Public Resource Code, which provides guidance as to what is considered a "historic resource" or "eligible resource". The criteria consists of the following:

• It is associated with events which have made a significant contribution to California's history and cultural heritage.

- It is associated with the lives of persons important to our past.
- The architecture embodies distinctive characteristics of a type, period, region, or method of construction or possesses high artistic values.
- The potential to yield any information important to history or pre-history.

After conducting research on the subject parcel, staff concluded that there is no evidence that the site or structure is associated with any historical event or person that contributes to the history of the United States, California, San Bernardino County, or the City of Redlands. In addition, the structure does not embody any distinctive characteristics of a type, period, region, method of construction or high artistic value, nor does the structure present any potential to yield any information important to history or pre-history. Further details of this analysis are included in the Preliminary Environmental Checklist Form (Attachment C).

#### **ANALYSIS**

The building permits on file for this property do not have records of issued permits for the construction of the dwelling. Based on aerial images, the property was constructed somewhere between 1955 and 1959, but the property is indeed over fifty (50) years of age. The Sanborn Fire Insurance Maps do not cover that portion of the City; however, historic aerials do indeed show the location of the existing building in 1959. Overall, there have only been minor alternations/improvements on record for this property as shown below.

Permit Type	Year Issued	Work Proposed
Building Alterations	2003	420 Lineal Feet 6'-0" retaining wall
Building Alterations	2005	125 Lineal Feet of 6'-0" retaining wall

The procedures outlined in RMC Section 2.24.090 through Section 2.24.140 apply to the demolition of property recorded in the City of Redlands List of Historic Resources. The subject property is not recorded in the list of local historic resources and is not subject to the procedures in Section 2.24 of the Redlands Municipal Code. However, Section 15.44.070 requires that prior to the demolition of any structure over 50 years old, the Historic and Scenic Preservation Commission is required to determine whether the structure is historically significant. Section 2.62.170 establishes the City's criteria for historic significance. Below, each City criteria is listed with justification as to why this structure is not historically significant.

#### **Local Criteria for Significance**

**Section 2.62.170.A.:** It has significant character, interest, or value as part of the development, heritage or cultural characteristics of the City of Redlands, State of California, or the United States.

**Response:** Historic aerials show the location of the structure on the property in 1959. Until construction of the house, the property was surrounded by citrus groves to accommodate the construction of the single family dwelling, and accessory structure. The citrus groves have been removed over time with a small portion of the original citrus groves still in existence. Given the estimated construction of the structure, and based on records searches, the structure does not appear to have a significant character, interest, or value as part of the development, heritage, or cultural characteristics of the City of Redlands, State of California, or United States.

**Section 2.62.170.B.:** It is the site of a significant historic event.

**Response:** Based on the research conducted by staff through local and regional newspaper database searches, building records, and ownership history, it has been determined that the land on which the building is located is not the site of a significant historic event.

**Section 2.62.170.C.:** It is strongly identified with a person or persons who significantly contributed to the culture, history or development of the city.

**Response:** Staff conducted research at the A.K. Smiley Library Heritage Room and through newspaper.com. The table (as shown below) lists the residents associated to the subject property based on the information provided by the City Directories located at the A.K. Smiley Library's Heritage Room.

<b>Directory Year</b>	Name(s)	Occupation
1961	Bruckart Jr John	Packing House Manager
1962	Bruckart Jr John	Packing House Manager
1965	Bruckart Jr John	Packing House Manager

The newspaper research that was conducted for each individuals revealed no significant information. John Jr. Bruckart was the manager of Redlands Cooperative Fruit Association. According to newspapers.com Mr. Bruckart was engaged with the civic life of Redlands and served on multiple boards of organizations. Mr. Bruckart played a leading role in the formation of the Redlands Cooperative Fruit Association; however, the

single family dwelling itself is not strongly identified with him as it is not mentioned in articles researched by staff.

**Section 2.62.170.D.:** It is one of the few remaining examples in the City possessing distinguishing characteristics of an architectural type or specimen.

**Response**: The single family residential dwelling has a split-level Ranch architectural style. The identifying features of the property include the low-pitched roof, broad façade, hipped roof, and the entrance under the cover of a porch. The split-level Ranch house has a simple design and it is not one of the few remaining examples in the City possessing distinguishing characteristics of this architectural type or specimen.

**Section 2.62.170.E.:** It is a notable work of an architect or master builder whose individual work has significantly influenced the development of the city.

**Response:** A local and regional newspaper records database search was conducted for the subject site. The city's building permit does not have information regarding the specific year the property was construction nor does it indicate the designer or builder of the dwelling. However, given the limited architectural features of the building, it can be reasonably assumed that the structure is not the notable work of an architect or master builder whose individual work has significantly influenced the development of the City.

**Section 2.62.170.F.:** It embodies elements of architectural design, detail, materials, or craftsmanship that represents a significant architectural innovation.

**Response**: As discussed under Section 2.62.170.D above, the dwelling has a split-level Ranch architectural style. The identifying features of the property include the low-pitched roof, broad façade, hipped roof, and the entrance under the cover of a porch. Overall, the dwelling does not embody elements of architectural detail and material that represents significant architectural innovation of its time.

**Section 2.62.170.G.:** It has a unique location or singular physical characteristics representing an established and familiar visual feature of a neighborhood, community, or the city.

**Response**: The property is located at 110 Terracina Boulevard. At the time the single-family dwelling was developed the subject property was surrounded by orange orchards. The properties that surround the subject property have now become largely developed with residential uses, or the orchards have been removed and the land has been left vacant. The properties to the north, east, and south have been developed with single family dwellings while the properties to the west remain vacant. Overall, the property is not located within a unique location and the structure is not a familiar visual feature of the neighborhood, community, or city. The surrounding properties are as follows:

	General Plan	Zoning	Land Use
North:	Very Low Density Residential	A-1	Residential
South:	Very Low Density Residential	A-1	Residential
West:	Very Low Density Residential	A-1	Residential
East:	Low Density Residential	R-S	Vacant

The site is not located within any registered Historic and Scenic Districts and is not listed as a designated historic resource.

Section 2.62.170.H.: It has unique design or detailing.

**Response:** The dwelling has simplistic features of the Ranch architectural style. The dwelling is constructed as a split-level Ranch style home. The front elevation has single metallic porch supports and metallic window frames. The exterior is clad with stucco. The dwelling does not have a unique design or detailing that is specific to the house.

**Section 2.62.170.I.:** It is a particularly good example of a period or style.

Response: The dwelling has a split level Ranch architectural style. The architectural characteristics of the residence do not embody distinctive features that represent a particularly good example of a period or style. The dwelling incorporates simplistic features such as its minimalist exterior finishes that contribute to its Ranch architectural style classification. At the time the dwelling was constructed it was surrounded with residential land uses which contributed to the simple design of the residential homes within that neighborhood. The city has a wide variety of homes that illustrate better examples of the period or style. The City's Historic Context Statement indicates that the bar of significance would be significantly higher; therefore, the structure which has limited unique architectural features would not be considered a particular good example or one of the best examples of this style within Redlands.

**Section 2.62.170.J.:** It contributes to the historical or scenic heritage or historical or scenic properties of the city (to include, but not be limited to, landscaping, light standards, trees, curbing, and signs).

**Response:** The dwelling does not contribute in any way to a group of historic or scenic properties within the City. The existing landscape is limited to dry vegetation and orchards. No light standards, curbing or signs that could be considered significant are present on site.

**Section 2.62.170.K.:** It is located within a historic and scenic or urban conservation district, being a geographically definable area possessing a concentration of historic or scenic properties which contribute to each other and are unified aesthetically by plan or physical development.

**Response:** Refer to the response under 2.62.170.J above. The site is not located within any historic district.

#### **CEQA Criteria for Significance**

In addition to the City of Redlands criteria, California Public Resources Code Section 5024.1 (Title 14 CCR, Section 4852) also has findings for determining if a building has "Historic Significance." Each of those findings is identified within the Preliminary Environmental Checklist Form (Attachment C) with justification as to why this structure is not historically significant.

## A. Associated with events have made a significant contribution to the broad patterns of California History and cultural heritage.

**Response:** A thorough record search of local newspapers and City directories did not indicate that this property is associated with any specific events that may have contributed to California's history or cultural heritage.

#### B. Is associated with the lives of persons important in our past.

**Response**: Please refer to the response provided under Section 2.62.170.C, above. The structures are not associated with the lives of persons important in our past.

C. Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values.

**Response:** Please refer to the response provided under Section 2.62.170.D, above. The structures do not embody distinctive characteristics of any type, period, region, or method of construction, nor does it represent the work of an important creative individual, nor possess high artistic values.

D. Has yielded, or may be likely to yield, information in prehistory or history.

**Response:** The buildings and site have not yielded any information regarding prehistory or history. Based on the review of the criteria above as it relates to the demolition of the structure, it is not historically significant and approval of the proposed project will not cause a substantial adverse change in the significance of a historical resource as defined in §15064.5.

#### **Conclusion of Analysis**

Based on the listed criteria and their associated responses, staff has determined the residential dwelling unit is not considered historically significant.

The Historic and Scenic Preservation Commission is authorized to determine the potential historical significance of the structure and the need for any further environmental review, and subsequently approve, condition or deny the demolition permit application. If the Commission determines that the structure has no historical significance and the permit application is approved, the application is exempt from further review by the City unless an appeal is made to the City Council. If no appeal is filed within the time provided, the Development Services Department may issue the demolition permit in accordance with the Redlands Municipal Code.

If the Commission determines that the structure has historical significance, the Commission would then direct staff to conduct additional environmental review and subsequently approve, condition, or deny the application.

#### STAFF RECOMMENDATION

Staff recommends that the Historic and Scenic Preservation Commission approve Demolition No. 363 based on the facts presented in this staff report and subject to the recommended Conditions of Approval.

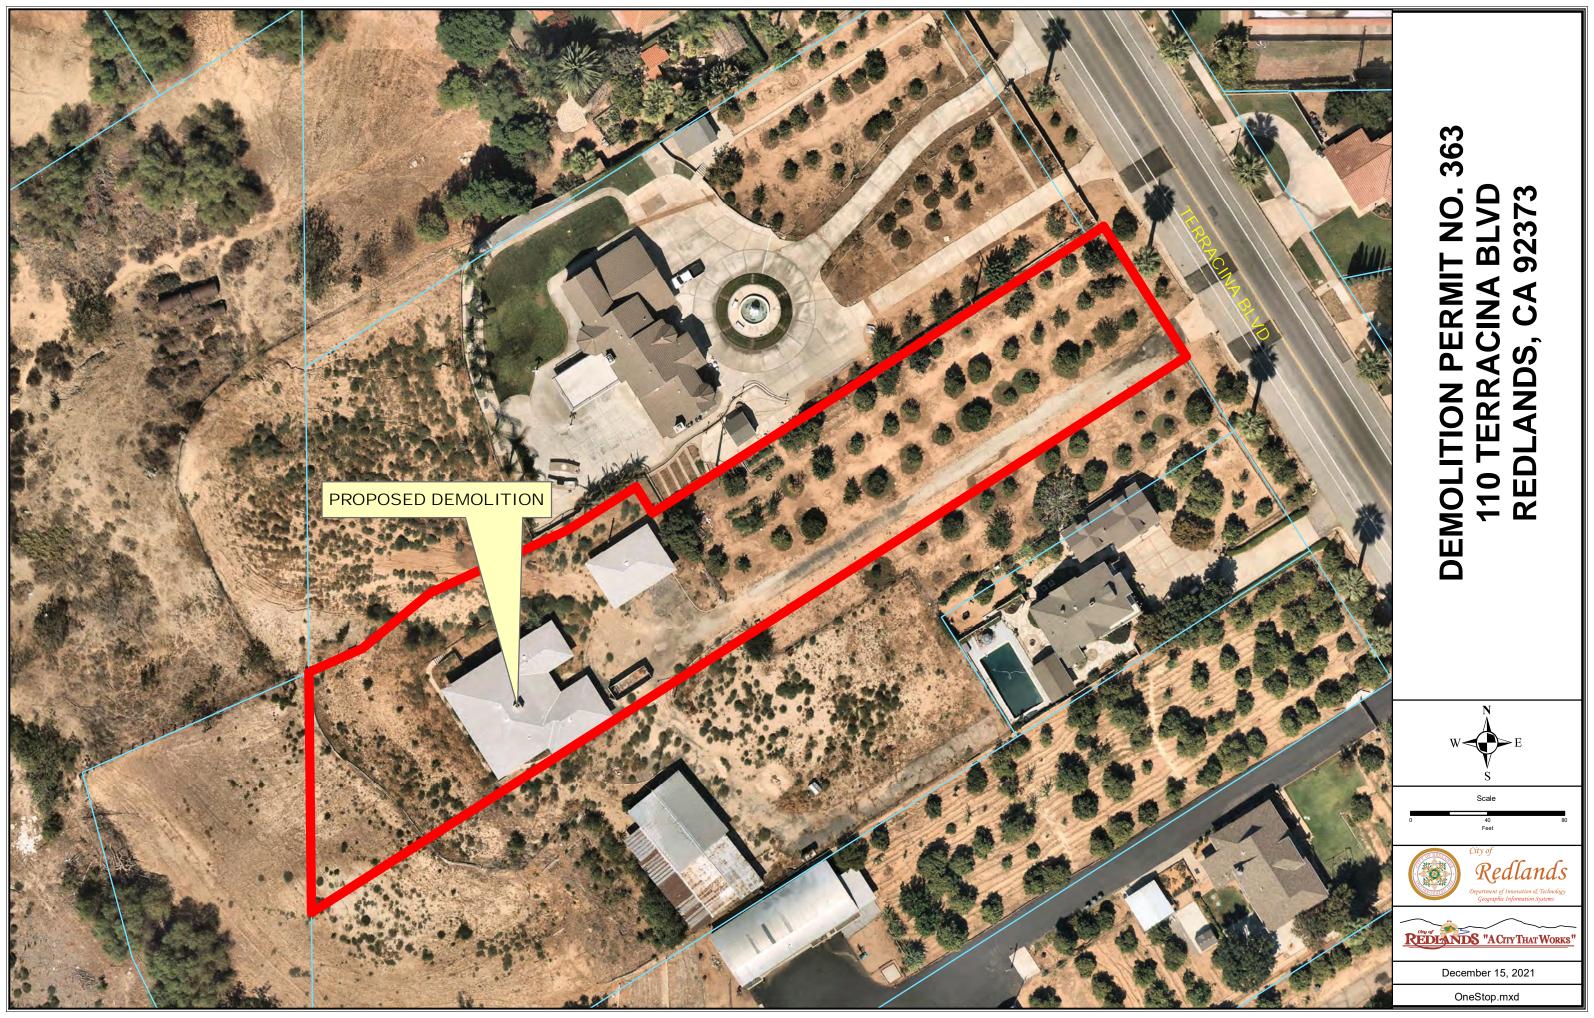

#### **MOTION**

If the Historic and Scenic Preservation Commission deems it appropriate, staff recommends the following motion:

"I move that the Historic and Scenic Preservation Commission adopt Resolution No. 2022-02, to determine that Demolition Permit No. 363 is exempt from review under the California Environmental Quality Act (CEQA) pursuant to Section 15301 (Existing Facilities) of the CEQA Guidelines and approving Demolition Permit No. 363, based on the facts within this staff report and subject to the Conditions of Approval."

- 12. <u>Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code section 21080.3.1? If so, has consultation begun?</u>

Not Applicable. This Preliminary Environmental Checklist is being prepared in compliance with Section 15.44.060 of the City of Redlands Municipal Code to confirm exemption from the California Environmental Quality Act.

#### ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a "Potentially Significant Impact" as indicated by the checklist on the following pages.

☐ Aesthetics	Greenhouse Gas Emissions	☐ Deputation & Housing
Aestrietics	☐ Greenhouse Gas Emissions	☐ Population & Housing
Agriculture & Forestry Resources	☐ Hazards & Hazardous Materials	☐ Public Services
☐ Air Quality	☐ Hydrology/Water Quality	Recreation
☐ Biological Resources	☐ Land Use & Planning	☐ Transportation & Traffic
☐ Cultural Resources	☐ Mineral Resources	☐ Utilities & Service Systems
☐ Geology and Soils	☐ Noise	☐ Mandatory Findings of Significance

#### **ENVIRONMENTAL DETERMINATION:**

On the basis of this initial study, the City of Redlands, as Lead Agency, finds that the proposed structure(s) to be demolished are not a Historical Resource and has no historical significance, as defined in Section 15064.5 of the California Environmental Quality Act Guidelines, and Chapter 15.44 of the Redlands Municipal Code. Consequently, the demolition of the structure(s) is considered to be ministerial and exempt from the preparation of a Negative Declaration or Environmental Impact Report, pursuant to the Section 15301 of the CEQA Guidelines, and the City's Municipal Code. Further, this initial study has been prepared in accordance with Section 15.44.060 of the Redlands Municipal Code which requires an initial study be prepared for all demolition permit applications involving structures over fifty (50) years old.

Ivan Flores, Assistant Planner City of Redlands December 09, 2021

Jim Elwo

#### **EVALUATION OF ENVIRONMENTAL IMPACTS:**

- A brief explanation is required for all determinations, except "No Impact" determinations that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" determination is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" determination should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All determinations and discussion must take account of the whole action involved, including offsite as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be potentially significant. If there are one or more "Potentially Significant Impact" entries in any section of this Initial Study, then an Environmental Impact Report (EIR) must be prepared to fully analyze the identified issue(s).
- "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section XVII, "Earlier Analyses," may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration (CEQA Guidelines Section 15063(c)(3)(D)). In such cases, a brief discussion should identify the following:
  - a) Earlier Analyses Used. Identify and state where they are available for review.
  - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
  - c) Mitigation Measures. For any effects that are determined to be "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist any and all references to information sources for potential impacts (e.g., General Plan maps or exhibits, zoning ordinances, specific plans, etc.). Reference to a previously-prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

- 7) Supporting Information Sources. A source list should be attached and other sources used or individuals contacted should be cited in the discussion. In this Initial Study, a References section is provided at the end of the document.
- 8) This is only a suggested form, and lead agencies are free to use different formats. However, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
  - a) The significance criteria or threshold, if any, used to evaluate each question; and,
  - b) The mitigation measure identified, if any, to reduce the impact to less than significance.

Issu		Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
I.	AESTHETICS. Would the project:				
	<ul> <li>a) Have a substantial adverse effect on a scenic vista?</li> </ul>				
	b) Substantially damage scenic resources, including, but no limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	t : : —			<u> </u>

	d) Create a new source or substantial light or glare which would adversely affect day or nighttime views in the area?	ı	_	_	✓_

Loca Than

#### Aesthetics – Discussion

- a) No Impact. The proposed project will not have an adverse effect on a scenic vista or scenic highway. The proposed project is the demolition of a single family residence which is not located within a scenic vista or along a scenic highway.
- b) No Impact. The proposed project will not damage scenic resources, including trees, rock outcroppings, or historic buildings within a state scenic highway. The property is not located along a state scenic highway and the building itself is not historic. The property is developed with a single family residence and detached accessory structure, is generally flat, and there is no known rock outcropping on-site.
- c) No Impact. The proposed project will not degrade the existing visual character or affect the quality of the site and its surroundings. The demolition of the single family residence would not create a change in the appearance of the surroundings. Overall, the demolition would not substantially degrade the existing visual character of the area.
- d) No Impact. The proposed project will not create a new source of substantial light or glare, which would adversely affect day or nighttime views in the area. Lighting and glare will be reduced as a result of the demolition of the structure onsite.

Issue	c.		Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
	RE who res effe Cal and pre Col use and the Fire inve For pro me For Cal the	In determining ether impacts to agricultural ources are significant environmental ects, lead agencies may refer to the lifornia Agricultural Land Evaluation de Site Assessment Model (1997) apared by the California Dept. of an assessing impacts on agriculture defarmland. forest use?

e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?

# \_\_ \_\_ <del>\_\_</del>

#### Agriculture & Forest Resources – Discussion

- a) No Impact. The project includes the demolition of a single family residence. The property does not include Prime Farmland and the demolition will not convert Prime Farmland or Unique Farmland of Statewide Importance to a non-agricultural use.
- b) No Impact. The demolition will not conflict with existing zoning for agricultural use, or a Williamson Act contract. The property is within a residential zone and it is not currently in use for agricultural purposes and has a very low density residential designation as outlined in the general plan. The demolition does not include any proposal to change the zoning district nor is the property under the Williamson Act contract.
- c) No Impact. This demolition is located in an area that is zoned for Residential use. The property does not contain any forest land (as defined in Public Resources Code section 12220(g), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production. As such, removal of the structures on the property will not create an impact on forest land or timberland.
- d) No Impact. The demolition will not result in the loss of forest land or conversion of forest land to non-forest use, as the property does not contain any forest land or propose the conversion of any forest land to non-forest use.
- e) No Impact. This demolition is located in an area surrounded by single family residences. There is no agriculture in the immediate area of the project. Therefore, no impacts will occur related to agriculture or forest resources.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
III. AIR QUALITY.  Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				
<ul> <li>a) Conflict with or obstruct implementation of the applicable air quality plan?</li> </ul>				

Issues:		Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
b)	Violate any air quality standard or contribute substantially to an existing or projected air quality violation?			_	✓
c)	Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is nonattainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?				✓_
d)	Expose sensitive receptors to substantial pollutant concentrations?				<u> </u>
e)	Create objectionable odors affecting a substantial number of people?				<u> </u>

#### Air Quality - Discussion

- a) No Impact. The proposed project will not conflict with or obstruct implementation of the applicable air quality plan. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures.
- b) *No Impact.* The proposed project will not violate any air quality standard or contribute substantially to an existing or projected air quality violation.
- c) No Impact. The proposed project will not result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard.
- d) No Impact. The proposed project will not expose sensitive receptors to substantial pollutant concentrations. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures.
- e) No Impact. The proposed project will not create objectionable odors affecting a substantial number of people. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures.

Issues:  IV. BIOLOGICAL RESOURCES.  Would the project:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish & Wildlife or U.S. Fish & Wildlife Service?				<u> </u>
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations, or by the California Department of Fish & Wildlife or U.S. Fish and Wildlife Service?				<u> </u>
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?				<u> </u>
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?				<u> </u>
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	_	—		<u> </u>

	Potentially Significant	Less Than Significant With Mitigation	Less Than Significant	No
Issues:	Impact	Incorporated	Impact	Impact
D' 1 ' 1D D' '				

#### Biological Resources - Discussion

- a) No Impact. The property is located within an urbanized area and the project scope is limited to the demolition of the existing structure. This demolition will not have a substantial adverse effect, either directly or through habitat modifications. All work completed will be required to adhere to all local, State, and Federal laws.
- b) *No Impact.* There are no riparian habitats or other sensitive natural communities within the project area and no disturbance beyond the limits of the subject property is proposed.
- c) No Impact. The proposed project will not have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means. No protected wetlands exist within the subject property.
- d) No Impact. The project includes the demolition of an existing single family residence, and related improvements that have been previously developed and will not interfere substantially with the movement of any native residential or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.
- e) No Impact. The proposed project will not conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance. Any removal of the trees is required to be done in compliance with all local, State, and Federal laws.
- f) No Impact. The proposed project will not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan.

	ULTURAL RESOURCES. ould the project:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a)	Cause a substantial adverse change in the significance of a historical resource as defined in § 15064.5?				<u> </u>
b)	Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5?				<u> </u>
c)	Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?				<u> </u>
d)	Disturb any human remains, including those interred outside of formal cemeteries?				✓_

#### <u>Cultural Resources – Discussion</u>

- a) No Impact. The historical significance of the project has been reviewed pursuant to the findings of Public Resources Code Section 5024.1, Title 14 CCR, Section 4852) which are as follow.
  - A. Associated with events that have made a significant contribution to the broad patterns of California History and cultural heritage.

Given the architectural style and use of the single family residence, staff has determined that the building is not associated with events that have made a significant contribution to the broad patters of California history and cultural heritage.

B. Is associated with the lives of persons important in our past.

Based on the research of public records conducted by staff and through local and regional newspaper database searches, staff was not able to identify any important persons associated with this building.

Research conducted by staff on newspaper.com and at the A.K. Smiley Library Heritage Room did not unveil any special importance of the occupants. The City Directory from 1961 indicates that John Jr. Bruckart occupied the property at least from 1961 – 1965. The San Bernardino County Assessors records show that the property was owned by the Bruckart's Family from 1955 to 2003 when it was then purchased by Atiye Tekin. Research conducted through newspapers.com did not find any information of significance for these owners. Staff has determined that the structures to be demolished are not associated with significant events from the past.

C. Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values.

The existing single family residence does not embody the distinctive characteristics of a type, period, region, or method of construction; nor, does it represent the work of an important creative individual or possess high artistic values. The split-level Ranch style home was constructed with minimal architectural features; additionally, the building permit does not contain any information on the architect or builder.

D. Has yielded, or may be likely to yield, information in prehistory or history.

The building and site have not yielded any information regarding prehistory or history. Based on the review of the criteria above as it relates to the demolition of the structure, the structure is not historically significant and approval of the proposed project will not cause a substantial adverse change in the significance of a historical resource as defined in §15064.5.

- b) No Impact. The building and site have not yielded any information regarding prehistory or history. The building will not likely yield information about the past. Therefore, approval of the proposed project will not cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5.
- c) No Impact. The proposed project will not directly or indirectly destroy a unique paleontological resource or site or unique geologic feature as ground disturbance is not proposed.
- d) No Impact. The proposed project will not disturb any human remains, including those interred outside of formal cemeteries.

Issues:	Impact	Incorporated	Impact	Impact

#### Geology & Soils - Discussion

- a) No Impact. The proposed project will not expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving: Rupture of a known earthquake fault; Strong seismic ground shaking; Seismic-related ground failure, including liquefaction; and, landslides.
- b) No Impact. Disturbance within the project site will be limited to the immediate location surrounding the project and the site is not being cleared or graded as a result of this project. The proposed project will not result in substantial soil erosion or the loss of topsoil.
- d) No Impact. Adoption of the proposed project is not located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property.
- e) No Impact. The proposed project does not have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of waste water. In addition, the scope of the project involves demolishing the structure on-site, and does not include the need for septic tanks.

Issues: VII. GREENHOUSE GAS EMISSIONS. Would the project:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
<ul> <li>a) Generate gas emissions, either directly or indirectly, that may have a significant impact on the environment?</li> </ul>				
b) Conflict with an applicable plan, policy or regulation adopted for the purposes of reducing the emissions of greenhouse gases?				<u> </u>

#### <u>Greenhouse Gas Emissions – Discussion</u>

- a) No Impact. The proposed project will not generate gas emissions, either directly or indirectly, that may have a significant impact on the environment.
- b) *No Impact.* The proposed project will not conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases.

Issues	: IAZARDS & HAZARDOUS	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
	IATERIALS. /ould the project:

Less Than

#### Hazards & Hazardous Materials - Discussion

- a) No Impact. The proposed project will not create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials. Prior to the issuance of a demolition permit, a demolition application shall be submitted to the City of Redlands Building and Safety Division for approval per the regulations set forth in the California Building Code. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures and the abatement of hazardous materials.
- b) *No Impact.* The proposed project will not create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment. Additionally, the demolition process shall comply with Chapter 15.44 of the <u>Redlands Municipal Code</u> which regulates the demolition of structures and the abatement of hazardous materials.
- c) No Impact. The proposed project will not emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school. The nearest public school is Redlands High School which is approximately 1.02 miles from the proposed project. The demolition process will be required to comply with Chapter 15.44 of the <u>Redlands Municipal Code</u> which regulates the demolition of structures and the abatement of hazardous materials.
- d) No Impact. The proposed project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5. This was verified by the Envirostor and GeoTracker database, as a result, would not create a significant hazard to the public or the environment.
- e f) No Impact. The proposed project is the demolition of a single family residence which is not located within the immediate vicinity of a public or private airstrip. Therefore, the project would not result in a safety hazard for people residing or working in the project area. The project is not located in an airport land use plan.
- g) No Impact. The proposed project will not impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan.
- h) No Impact. The proposed project will not expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands.

Issu			Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
IX.		DROLOGY & WATER QUALITY.  Sould the project:				
	a)	Violate any water quality standards or waste discharge requirements?				
	b)	Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?				<u> </u>
	c)	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?				<u> </u>
	d)	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?				<u> </u>
	e)	Create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff?				✓_
	f)	Otherwise substantially degrade water quality?				<u> </u>
	g)	Place housing within a 100-year				<u> </u>

flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?

h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?

\_ \_ \_ \_

i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?

\_\_ \_\_ \_\_

j) Inundation by seiche, tsunami, or mudflow?

#### Hydrology & Water Quality - Discussion

- a) No Impact. The proposed project is the demolition of a single family residence. No discharge will be created due to the removal of the structures onsite. The proposed project will not violate any water quality standards or waste discharge requirements.
- b) No Impact. The project consists of demolishing a single family residence, and is not expected to utilize groundwater supplies. The proposed project will not substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aguifer volume or a lowering of the local groundwater table level.
- c) No Impact. The project is the demolition of a single family residence. The site will not be modified beyond the removal of the structure. The proposed project will not substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite.
- d) No Impact. The proposed project is a demolition and will remove impervious surface area from the site. This should result in a reduction in the amount of runoff from the site. The proposed project will not create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.
- e) No Impact. The proposed project is the demolition of a single family residence and proposes a remodel with a new single family dwelling. The proposed project will not place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map. The proposed project will not place within a 100-year flood hazard area structures that would impede or redirect flood flows.
- f) No Impact. The proposed project will not expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam.

		No impact will occur.

g)

of a known mineral resource that would be of value to the region and the residents of the state?

b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?

#### <u>Mineral Resources – Discussion</u>

- a) No Impact. The removal of the structures on-site will not change the availability of mineral resources and the project is not located near a mineral resource recovery area. No impact will occur related to these issues.
- b) No Impact. The removal of the structures will not result in the loss of availability of a locally important mineral source as delineated on a local general plan, or specific plan.

Issue	es:  NOISE. Would the project:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
	a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?				<u> </u>
	b) Exposure of persons to or generation of excessive ground borne vibration or ground borne noise levels?				<u> </u>
	c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?				<u> </u>
	d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?				<u> </u>

f)	For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?				<u> </u>

#### Noise - Discussion

- a) No Impact. The proposed project will not result in exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies. The proposed project will not result in exposure of persons to or generation of excessive ground borne vibration or ground borne noise levels.
- b) No Impact. The proposed project will not result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project. Project will be required to comply with the City's Noise Ordinance.
- c) No Impact. The project is located approximately 6.2 southwest of the Redlands Municipal Airport. The proposed project is a demolition of a single family residence. This demolition would not expose people residing or working in the project area to excessive noise levels within the vicinity of an airport.
- d) No Impact. The proposed project is not within the vicinity of a private airstrip. The proposed project is the demolition of a four small structures. This demolition would not expose people residing or working in the project area to excessive noise levels.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XIII. POPULATION & HOUSING. Would the project:				

Issues:		Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a)	Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of road or other infrastructure)?				<u> </u>
b)	Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	_	_		<u> </u>
c)	Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?				

#### Population & Housing - Discussion

- a) No Impact. The proposed project is the demolition of a single family residence. No extension of infrastructure is proposed by this project and no population growth is anticipated.
- b) *No Impact.* The proposed project is the demolition of a single family residence. The demolition would not result in the displacement of existing housing.
- c) No Impact. The proposed project will not result in the displacement of a substantial number of people that would require the construction of a replacement housing as it is currently a vacant single family dwelling.

c)	Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that result in substantial safety risks?				
d)	Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?				_✓
e)	Result in inadequate emergency access?				
f)	Conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?				<u> </u>

Less Than

#### <u>Transportation & Traffic – Discussion</u>

a-f) No Impact. The proposed project is the demolition of a single family residence. The removal of these structures would not create additional vehicle trips, or result in changes to vehicle circulation patterns, emergency access, and transit facilities. The demolition of the single family residence will not conflict with congestion on any major roads or highways or conflict with any applicable plan, ordinance or policy establishing measures of effectiveness for the performance of circulation systems.

Issues:  XVII. TRIBAL CULTURAL RESOURCES.  Would the project:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Would the project cause a substantial adverse  change in the significance of a tribal cultural resource, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:				<u> </u>
i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k); or,				
ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.				<u> </u>

#### <u>Tribal Cultural Resources – Discussion</u>

a) No Impact. The subject site was initially developed as a single family residence and accessory structures. Only the single family residence will be demolished. No subsurface activities will occur as a result of the demolition of the structures on-site, beyond the removal of slabs and foundations. Grading of the site is not proposed in the scope of this demolition.

Issues:

XVIII. UTILITIES & SERVICE SYSTEMS.

Would the project:

a)	Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	 	_	
b)	Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	 		
c)	Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	 		✓
d)	Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?	 		
e)	Result in a determination by the wastewater treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	 		<u> </u>
f)	Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	 		<u>√</u>
g)	Comply with federal, state, and local statutes and regulations related to solid waste?	 	_	<b>✓</b>

#### Utilities & Service Systems - Discussion

- a) No Impact. The demolition of the single family residence will not result in an increase in waste water treatment because no new net building is being constructed that would require waste water treatment.
- b) No Impact. The proposed project will not require the construction of a new water or wastewater treatment facility which could cause significant environmental effects as it is the demolition of a single family residence.
- c) No Impact. The proposed project will not require the construction of storm water drainage facilities which could cause significant environmental effects as it is the demolition of an existing single family residence.
- d) *No Impact*. The proposed project is the demolition of a single family residence. A new single family dwelling will be serviced by existing water meters.
- e) No Impact. The new single family dwelling would remain and continued to be serviced by the wastewater treatment.
- f) No impact. The proposed project will be required to submit a demolition and construction recycling plan subject to review and approval by the Facilities and Community Services Department.
- g) *No Impact.* The proposed project is the demolition of a single family residence. The project will comply with the local, state, and federal regulations relative to solid waste.

Issues: XIX. MANDATORY FINDINGS OF SIGNIFICANCE.	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?				✓_
<ul> <li>b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)</li> </ul>				✓_
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?				<u> </u>

#### Mandatory Findings of Significance – Discussion

- a) No Impact. The proposed project will not have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory.
- b) No Impact. The proposed project will not have impacts that are individually limited, but cumulatively considerable.
- c) No Impact. The proposed project will not have environmental effects that will cause substantial

adverse effects on human beings, either directly or indirectly.

Resolution No. 2022-02 with Exhibit A (Conditions of Approval)

#### RESOLUTION NO. 2022-02

A RESOLUTION OF THE HISTORIC AND SCENIC PRESERVATION COMMISSION OF THE CITY OF REDLANDS APPROVING DEMOLITION NO. 363, TO DEMOLISH AN APPROXIMATELY 1,860 SQUARE FOOT SINGLE FAMILY DWELLING, LOCATED AT 110 TERRACINA BOULEVARD (APN: 0293-141-32-0000).

WHEREAS, Mike Tekin has submitted an application for Demolition No. 363 to demolish an 1,860 square-foot single-family residential dwelling located at 110 Terracina Boulevard within the Agricultural District (A-1) (APN: 0293-141-32-0000).

WHEREAS, notice of this Historic and Scenic Preservation Commission public hearing was provided in accordance with Redlands Municipal Code Section 15.44; and

WHEREAS, on January 06, 2022 the Historic and Scenic Preservation Commission held a public hearing and considered the staff report, oral report, the testimony and the written evidence submitted by and on behalf of the applicant and by members of the public; and,

WHEREAS, Public Resources Code Section 15301 (Existing Facilities) provides for exemption the California Environmental Quality Act, and the project qualifies for this exemptions; and,

WHEREAS, following the public hearing for Demolition Permit No. 363, the Historic and Scenic Preservation Commission determined that the structure does not have historical significance and is exempt from the preparation of a negative declaration or environmental impact report under the California Environmental Quality Act.

- NOW, THEREFORE, BE IT RESOLVED by the Historic and Scenic Preservation Commission of the City of Redlands as follows:
- <u>Section 1.</u> The proposed project is Exempt from the California Environmental Quality Act per Section 15301 (L)(1) (Existing Facilities), and there is no substantial evidence of any potentially significant impacts.
- <u>Section 2.</u> The proposed Demolition is hereby approved subject to the conditions of approval contained in Exhibit A attached to this Resolution.
- <u>Section 3.</u> This Resolution shall become effective upon adoption, and will be subject to a ten day appeal period.

# EXHIBIT A DEVELOPMENT SERVICES DEPARTMENT PLANNING DIVISION

## CONDITIONS OF APPROVAL FOR DEMOLITION NO. 363

Date of Preparation: December 13, 2021

Historic and Scenic Preservation

Commission Date: January 06, 2022

Applicant: Mike Tekin

Location: 110 Terracina Boulevard

1. This approval is to demolish an approximately 1,860 square foot residential dwelling over 50 years of age located at 110 Terracina Boulevard within the Agricultural District (A-1) (APN: 0293-141-32-0000)

- 2. Prior to demolition, a building permit shall be obtained from the Development Services Department.
- 3. The issuance of any permits shall comply with all provisions of the <u>Redlands</u> <u>Municipal Code</u>, including Section 15.44 which regulates the demolition of structures.
- 4. Unless demolition has commenced pursuant to a building permit, this application shall expire in eighteen (18) months from the approval date.
- 5. All demolition activities shall be limited to the hours from 7:00 a.m. to 6:00 p.m., Monday through Saturday and prohibited on Sundays and Federal Holidays.
- 6. The applicant for this permit, and its successors and assigns, shall defend, indemnify and hold harmless the City of Redlands, and its elected officials, officers, agents and employees, from and against any and all claims, actions, and proceedings to attack, set aside, void or annul the approval of this permit by the City, or brought against the City due to acts or omissions in any way connected to the applicant's project that is the subject of this permit. This indemnification shall include, but not be limited to, damages, fees, costs, liabilities, and expenses incurred in such actions or proceedings, including damages for the injury to property or persons, including death of a person, and any award of attorneys' fees. In the event any such action is commenced to attack, set aside, void or annul all, or any, provisions of this permit, or is commenced for any other reason against the City for acts or omissions relating to the applicant's project, within fourteen (14) City business days of the same, the applicant shall file with the City a performance

bond or irrevocable letter of credit (together, the "Security") in a form and in an amount satisfactory to the City, to ensure applicant's performance of its defense and indemnity obligations under this condition. The failure of the applicant to provide the Security shall be deemed an express acknowledgement and agreement by the applicant that the City shall have the authority and right, without objection by the applicant, to revoke all entitlements granted for the project pursuant to this permit. The City shall have no liability to the applicant for the exercise of City's right to revoke this permit.
