

REQUEST FOR HISTORIC AND SCENIC PRESERVATION COMMISSION ACTION

V.A. DAVID JACOBSON, APPLICANT
(PROJECT PLANNER: JAZMIN SERRATO)

PUBLIC HEARING to consider **Demolition No. 385** – A request to demolish an approximately 600 square-foot detached accessory structure over 50 years of age located at 451 Cajon Street (APN: 0173-051-02-0000) within the Administrative & Professional Office (A-P) District. This proposal may qualify for exemption from the California Environmental Quality Act (CEQA) pursuant to Section 15301(I)(4) (Existing Facilities) of the CEQA Guidelines.

HISTORIC AND SCENIC PRESERVATION MEETING: July 6, 2023

Planner: Jazmin Serrato, Junior Planner

Reviewed by: Brian Foote, City Planner/Planning Manager

PROCEDURE FOR PUBLIC HEARING

1. Chairperson declares the meeting open as a public hearing.
2. Chairperson calls upon staff for report.
3. Chairperson calls for questions/comments from members of the Commission.
4. Chairperson calls upon applicant, or its representative, for comments/testimony.
5. Chairperson calls for comments/questions/testimony from members of the public (3 minutes per speaker).
6. Chairperson calls upon the applicant, or representative, for rebuttal comments (5 minutes).
7. Chairperson closes the public hearing.
8. Commission considers the motion(s) and votes.

SYNOPSIS

1. Historic Designation: The structure is not designated as a historic resource or federally designated; however, it is located within the Early Redlands Historic and Scenic District, designated by the City of Redlands.
2. Existing Land Use: Zoning: Administrative Professional Office (A-P) District
General Plan: Office
3. Historic and Scenic Preservation Commission submittal dates:
 - (A) Submittal Dates: April 21, 2023
 - (B) Date Deemed Complete: May 19, 2023
 - (C) Historic and Scenic Preservation Commission Meeting: July 6, 2023

4. Attachments:

- (A) Location Map & Aerial Photograph
- (B) Site Photographs
- (C) Historic Inventory Sheet
- (D) Preliminary Environmental Checklist
- (E) Resolution No. 2023-14

PROPOSAL

The applicant, David Jacobson, is proposing to demolish an approximately 600 square-foot garage located at 451 Cajon Street (see Attachments A and B) within the Administrative & Professional Office (A-P) District. The existing garage is over 50 years of age. The applicant proposes to demolish the structure to create space to construct a new accessory dwelling unit.

BACKGROUND

Photographs provided by the applicant show that the existing accessory structure is approximately 600 square feet, approximately 300 square-feet of the space consists of a two-car garage and the remaining space consists of a studio with a restroom. Staff was not able to locate the original building permits for the construction of a 600 square-foot detached garage or for the conversion of a portion of the garage space into a studio space with a restroom. The 1908 Sanborn map and the historical aerial image from 1938 show the presence of a detached accessory structure with the same building footprint. Sanborn maps from 1908 to 1959 label the accessory structure as a garage; there are no permits on file for the studio conversion. Staff is not able to confirm when the original structure was constructed, but based on historical aerial images and Sanborn maps, the structure is over 50 years of age.

SUMMARY

The building permit record for this property does not indicate the year built for the accessory structure. San Bernardino County Assessor's Office records indicate that the main residence on the property was constructed in 1901. Historic aerials confirm the placement of the dwelling in the 1938 aerial image, and the City's Directories begin to list the individuals that were associated with the subject property in 1910. Based on historic aerial images, Sanborn maps, and the City's Directories associated with the subject property, the detached accessory structure is at least 50 years of age.

The 1976 Historic Inventory Sheet (Attachment C) for the main residence does not mention the accessory structure. The 1909 Sanborn maps indicate that the property was surrounded by residential homes within the vicinity of the subject property. Since that

time, the remaining vacant parcels have been developed with residential dwellings and a few residences have since been converted into administrative and professional offices.

ENVIRONMENTAL REVIEW

Staff prepared a Preliminary Environmental Checklist for the proposed project in accordance with Section 15.44.060 of the Redlands Municipal Code, which requires an environmental checklist be prepared for all demolition permit applications involving structures over 50 years old. This preliminary checklist provides an environmental analysis of the project that confirms that, with the Commission's concurrence, the structures are not considered "historic resources" or "eligible resources." Therefore, demolition of the structures would qualify for a Notice of Exemption pursuant to Section 15301 of the California Environmental Quality Act Guidelines.

Section 15301(l) of the California Environmental Quality Act states that the demolition and removal of individual small structures including accessory structures, is exempt from environmental review. In addition, Section 15064.5 of the California Environmental Quality Act refers to the California Public Resource Code, which provides guidance as to what is considered a "historic resource" or "eligible resource." The criteria consist of the following:

- It is associated with events which have made a significant contribution to California's history and cultural heritage.
- It is associated with the lives of persons important to our past.
- The architecture embodies distinctive characteristics of a type, period, region, or method of construction or possesses high artistic values.
- The potential to yield any information important to history or pre-history.

After conducting research on the subject parcel, staff concluded that there is no information or evidence that the structure is associated with any historical event or person that contributes to the history of the United States, California, San Bernardino County, or the City of Redlands. In addition, the structure does not embody any distinctive characteristics of a type, period, region, method of construction or high artistic value, nor does the structure present any potential to yield any information important to history or pre-history. Further details of this analysis are included below and in the Preliminary Environmental Checklist Form (Attachment D).

ANALYSIS

The procedures outlined in RMC Section 2.24.090 through Section 2.24.140 apply to the demolition of properties recorded in the City of Redlands List of Historic Resources. The subject property is recorded in the list of local historic resources and is subject to the procedures in Section 2.24 of the Redlands Municipal Code. Section 15.44.070 requires that prior to the demolition of any structure over 50 years old, the Historic and Scenic Preservation Commission is required to determine whether the structure is historically significant. Section 2.62.170 establishes the City's criteria for historic significance. Below, each City criteria is listed with justification as to why this structure is not historically significant.

A) Local Criteria for Significance

RMC Section 2.62.170(A): It has significant character, interest, or value as part of the development, heritage or cultural characteristics of the City of Redlands, State of California, or the United States.

The San Bernardino County Assessor Office indicates that the main dwelling was constructed in 1901. Historic aerial images show the presence of the accessory structure on the property in the 1938 aerial image and Sanborn maps from 1909 also show the building footprint of the detached accessory structure. The original building permits for the construction of the garage or conversion of a portion of the structure into a studio space were not found in the city's building permit history. The building permits that are on file for the subject property include the following:

Permit Type	Year Issued	Work Proposed
Building Permit	May 21, 1931	Addition to bathroom
Building Permit	June 4, 1940	General Repairs
Building Permit	December 19, 1940	Kitchen Repair
Building Permit	December 4, 1941	Window Repair
Building Permit	June 5, 1944	Insulation Repair
Building Permit	September 18, 1944	General Repairs
Electrical Permit	September 3, 1946	Electrical Permit
Building Permit	October 20, 1949	Repair Foundation
Building Permit	April 17, 1951	Kitchen Remodel
Plumbing Permit	July 6, 1955	Plumbing
Plumbing Permit	July 13, 1955	Plumbing
Building Permit	July 13, 1955	Bathroom addition & electrical
Electric Permit	June 4, 1968	Electrical Permit
Sign Permit	June 17, 1968	Sign Permit

Electrical Permit	July 21, 1977	Electrical Permit
Building Permit	December 9, 1982	Building Solar
Building Permit	April 15, 1991	Roofing Permit
Building Permit	April 28, 1993	Driveway Replacement
Electrical Permit	April 29, 2002	Electrical Permit
Building Permit	November 1, 2005	Wall
Building Permit	February 28, 2006	3 Units to 1 SFD
Building Permit	March 22, 2007	Exterior Modifications
Electrical Permit	February 9, 2009	Electrical Permit
Building Permit	November 8, 2011	Foundation Retrofit

Based on historic aerial images and Sanborn maps associated with the subject property, the accessory structure is at least 50 years of age. Staff also conducted research at the A.K. Smiley Library Heritage Room and through newspaper.com. The newspaper search and research conducted at the A.K. Smiley Library Heritage Room revealed there were many individuals associated with the subject property with varying job occupations. Section 2.62.170(C), discussed below, has more information regarding the individuals that are associated to the subject property. Overall, there is no significant evidence that this structure makes a significant contribution to the development, heritage or cultural characteristics of the city, State, or County.

RMC Section 2.62.170(B): It is the site of a significant historic event.

Based on the research conducted by staff through local and regional newspaper database searches, building records, and ownership history, it has been determined that the land on which the building is located is not the site of a significant historic event. No information was found associated with significant events related to this structure.

RMC Section 2.62.170(C): It is strongly identified with a person or persons who significantly contributed to the culture, history, or development of the city.

Staff conducted research at the A.K. Smiley Library Heritage Room and through newspaper.com. The City's Directories begin to list the subject property in 1910. The table (shown below) lists the residents associated with the primary dwelling based on the information obtained from the City Directories located at the A.K. Smiley Library's Heritage Room and the 1976 Historical Inventory Sheet.

No information was found for most of the residents from 451 Cajon Street, but newspapers indicate that a few residents were active members of their community. For example, Mr. Moslander worked at F. Arthur Cortner funeral chapel, was a member of the Masonic Lodge in Nogales, the Redlands Elk Lodge, the Redlands American Legion Post 106, and was a past president of the Redlands Shrine Club. His wife, Eleanor Moslander, was a member of the Temple Baptist Businesswoman's Circle of the Women's Missionary Union and treasurer of the Orange Blossom Club. The property at 451 Cajon Street was one of their first residences in Redlands, but most of the newspapers cite their residence at 306 La Palma Street. Other residents such as Loren Marshall and Pat O'Leary were alumni of the University of Redlands. Additionally, newspapers indicate Wilburn Young was part of the Redlands Camera Club, Wilhelmina Mikelson was a member of Women of the First Methodist Church, and Mignonette Turner was an involved teacher, organist, and pianist for the Sacred Heart Church.

Several newspapers from the Redlands Daily Facts dated between the years 1901 to 1974 indicate Frank A. Leonard was a Superior Court Judge for San Bernardino County and Redlands City Attorney. He resided at 451 Cajon Street upon arriving to Redlands, but later resided at 355 Cajon Street (which was demolished in 1961).

Additionally, several newspapers mention the large financial contributions made by George P. Cortner to the University of Redlands, and a newspaper from 1914 indicate he was appointed City Mayor from 1914 to 1916. City directories indicate he resided at the subject property in 1919 as the sole owner of the main residence, and therefore is not associated with the subject accessory structure.

For many of the other tenants, 451 Cajon Street served as a temporary home and the change of residents listed for each directory is evidence of the turnover rate. Overall, the individuals listed and mentioned above are not associated with the accessory structure itself, but rather the main dwelling and are not known to have significantly contributed to the culture, history or development of the city.

RMC Section 2.62.170(D): It is one of the few remaining examples in the city possessing distinguishing characteristics of an architectural type or specimen.

The detached accessory structure, approximately 600 square-feet, is located at the rear yard of the existing single-family residence adjacent to the north side yard of the subject property. The subject structure has a simplistic design consisting of a shed roof with corrugated metal roofing and white trim along the frame of the house and along the west elevation window and doors. The exterior primarily consists of oriented strand board panels with a small section consisting of horizontal wood siding in the west elevation containing terracotta planters arranged in a three-by-three fashion. The detached structure is visible from the public right-of-way and the condition of the structure has changed over the years. There is a Minor Certificate of Appropriateness on file from 2006 for the replacement of a sliding garage door to the sectional roll-up door that is now present in the west elevation. Additionally, the exterior of the structure once consisted of a blue horizontal wood siding but has since been replaced or stripped to oriented strand board panels. Overall, the existing garage is not one of the few remaining examples in the City possessing distinguishing characteristics of this architectural type or specimen.

RMC Section 2.62.170(E): It is a notable work of an architect or master builder whose individual work has significantly influenced the development of the city.

A local and regional newspaper records database search was conducted for the accessory structure. The city's building permits, and the 1976 Historical Inventory Sheet do not have information regarding the specific year the subject structure was constructed, nor do they indicate the designer or builder of the accessory structure. However, given the limited architectural features of the building, it can be reasonably assumed that the structure is not the notable work of an architect or master builder whose individual work has significantly influenced the development of the City.

RMC Section 2.62.170(F): It embodies elements of architectural design, detail, materials, or craftsmanship that represents a significant architectural innovation.

As discussed under Section 2.62.170(D) above, the detached accessory structure does not embody elements of architectural design, detail, materials, or craftsmanship that represent a significant architectural innovation. In the 1976 Historical Inventory Sheet, the primary dwelling is noted as "one of the last remaining examples of the turn-of-the-century

middle class housing featuring clapboard construction and modified Greek revival features.” However, the accessory structure is not mentioned within the Historical Inventory Sheet and is much simpler in design and has primarily been used as a garage and studio room. The detached accessory structure consists of a corrugated metal shed roof, oriented strand board panels, horizontal wood siding, and a white trim along the frame and west elevation doors and window. Overall, the garage does not have a unique design that distinguishes this property from other properties within the city.

RMC Section 2.62.170(G): It has a unique location or singular physical characteristics representing an established and familiar visual feature of a neighborhood, community, or the city.

The garage is within the rear yard of the existing single-family residence, located at 451 Cajon Street, adjacent to the northerly side yard of the subject property. The 1909 Sanborn maps indicate that the property was surrounded by residential homes within the vicinity of the subject property. Since that time, the remaining vacant parcels have been developed with residential dwellings and a few residences have since been converted into administrative and professional offices. The property is not located within a unique location and the accessory structure is not a familiar visual feature of the neighborhood, community, or city. The surrounding properties are as follows:

	<u>General Plan</u>	<u>Zoning</u>	<u>Land Use</u>
North:	Office	Administrative and Professional Office (A-P) District	Residential, Multifamily
South:	Office	Administrative and Professional Office (A-P) District	Office, Dental
West:	Office	Administrative and Professional Office (A-P) District	Office, Medical
East:	Medium Density Residential	Multifamily Residential (R-2) District	Single-family, Residential

The site is not designated as a historic resource or federally designated; however, it is located within the Early Redlands Historic and Scenic District, designated by the City of Redlands.

RMC Section 2.62.170(H): It has unique design or detailing.

The detached accessory structure has a simplistic design and is approximately 600 square-feet in size. The exterior consists of oriented strand board panels with a white trim along the frame of the structure and a corrugated metal shed roof. The garage door of the accessory structure was modified in 2006, but there are no additional permits for the

modification of the garage or permits for the studio conversion and restroom addition. The features of the accessory structure are generally modest and simple in design and do not represent a unique design or detailing specific to this home. The architectural features that are incorporated into the accessory structure are common features and are not unique to the overall design of the subject property.

RMC Section 2.62.170(I): It is a particularly good example of a period or style.

The architectural characteristics of the detached accessory structure do not embody distinctive features that represent a particularly good example of a period or style. The accessory structure was constructed as a garage and a portion was later converted into a studio room with a restroom. The structure has been utilized as a garage ancillary to the existing single-family residential dwelling and as a studio room. The accessory structure incorporated simplistic features such as a corrugated metal shed roof and an exterior consisting of oriented strand board panels and horizontal wood siding. The city has a wide variety of accessory structures that illustrate better examples of the period or style within the historical district. The City's Historic Context Statement indicates that the bar of significance would be significantly higher for styles that are more common throughout the City; therefore, the structure which has limited unique architectural features would not be considered a particular good example or one of the best examples of this style within Redlands.

RMC Section 2.62.170(J): It contributes to the historical or scenic heritage or historical or scenic properties of the city (to include, but not be limited to, landscaping, light standards, trees, curbing, and signs).

The detached garage does not contribute in any way to a group of historic or scenic properties within the City. The existing landscape on the subject property includes grass, small shrubs, and small trees. The existing features that are present on the subject property including the landscaping, driveways, curbs, etc. will remain on the property. No light standards, curbing or signs that could be considered significant are present on site.

RMC Section 2.62.170(K): It is located within a historic and scenic or urban conservation district, being a geographically definable area possessing a concentration of historic or scenic properties which contribute to each other and are unified aesthetically by plan or physical development.

Refer to the response under 2.62.170(J) above. The site is located within the Early Redlands Historic and Scenic District, designated by the City of Redlands. However, the demolition of the accessory structure will not impact the visual character of the subject property and will be replaced by an accessory dwelling unit that will aesthetically contribute to the subject property from the public right-of-way view.

B) CEQA Criteria for Significance

In addition to the City of Redlands criteria, California Public Resources Code Section 5024.1 (Title 14 CCR, Section 4852) also has findings for determining if a building has “Historic Significance.” Each of those findings is identified within the Preliminary Environmental Checklist Form (Attachment C) with justification as to why this structure is not historically significant.

A. Associated with events have made a significant contribution to the broad patterns of California History and cultural heritage.

A thorough record search of local newspapers and City directories did not indicate that this property is associated with any specific events that may have contributed to California’s history or cultural heritage.

B. Is associated with the lives of persons important in our past.

Please refer to the response provided under Section 2.62.170(C) above. The detached accessory structure is not associated with the lives of persons important in our past, given that it was primarily used as a studio room and a garage for vehicle storage.

C. Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values.

Please refer to the response provided under Section 2.62.170(D), above. The structure does not embody distinctive characteristics of any type, period, region, or method of construction, nor does it represent the work of an important creative individual, nor possess high artistic values.

D. Has yielded, or may be likely to yield, information in prehistory or history.

The existing accessory structure has not yielded any information regarding prehistory or history. Based on the review of the criteria above as it relates to the demolition of the structure, it is not historically significant, and approval of the proposed accessory structure demolition will not cause a substantial adverse change in the significance of a historical resource as defined in §15064.5.

C) Conclusion of Analysis

Based on the listed criteria and their associated responses, staff has determined the detached garage is likely not considered historically significant.

The Historic and Scenic Preservation Commission is authorized to determine the potential historical significance of the structure and the need for any further environmental review, and subsequently approve, condition, or deny the demolition permit application. If the Commission determines that the structures have no historical significance and the permit application is approved, the application is exempt from further review by the City unless an appeal is made to the City Council. If no appeal is filed within the time provided, the Development Services Department may issue the demolition permit in accordance with the Redlands Municipal Code.

If the Commission determines that the structure has historical significance, the Commission would then direct staff to conduct additional environmental review and subsequently approve, condition, or deny the application.

STAFF RECOMMENDATION

Staff recommends that the Historic and Scenic Preservation Commission approve Demolition No. 385 based on the facts presented in this staff report and subject to the recommended Conditions of Approval.

MOTION

If the Historic and Scenic Preservation Commission deems it appropriate, staff recommends the following motion:

“I move that the Historic and Scenic Preservation Commission adopt Resolution No. 2023-14, to determine that Demolition Permit No. 385 is exempt from environmental review under the California Environmental Quality Act (CEQA) Section 15301 (Existing Facilities) of the CEQA Guidelines and approve Demolition Permit No. 385 based on the facts within this staff report and subject to the Conditions of Approval.”

Redlands, CA 92373
- 6. General Plan Designation: Office
- 7. Zoning Designation: Administrative Professional Office (A-P) District

Description of Project: The applicant is proposing to demolish an approximately 600 square-foot detached accessory structure over 50 years of age located at 451 Cajon Street (APN: 0173-051-02-0000) within the Administrative Professional Office (A-P) District. This proposal may qualify for exemption from the California Environmental Quality Act (CEQA) pursuant to Section 15301(l)(4) (Existing Facilities) of the CEQA Guidelines.

- 8. Existing On-site Land Use and Setting: The subject property is currently developed with a single-family residential dwelling. The existing accessory structure is located at the rear yard of the existing single-family residence adjacent to the north side yard of the subject property. The surrounding properties are as follow:

	General Plan	Zoning	Land Use
North:	Office	Administrative and Professional Office (A-P) District	Residential, Multifamily
South:	Office	Administrative and Professional Office (A-P) District	Office, Dental
West:	Office	Administrative and Professional Office (A-P) District	Office, Medical
East:	Medium Density Residential	Multifamily Residential (R-2) District	Single-family, Residential

The site is not designated as a historic resource or federally designated; however, it is located within the Early Redlands Historic and Scenic District, designated by the City of Redlands.

9. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement): None.
10. Have California Native American tribes traditionally and culturally affiliated with the project area requested consultation pursuant to Public Resources Code section 21080.3.1? If so, has consultation begun?

Not Applicable. This Preliminary Environmental Checklist is being prepared in compliance with Section 15.44.060 of the City of Redlands Municipal Code to confirm exemption from the California Environmental Quality Act, through Section 15301 (Existing Facilities).

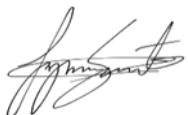

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below would be potentially affected by this project, involving at least one impact that is a “Potentially Significant Impact” as indicated by the checklist on the following pages.

- | | | |
|---|--|---|
| <input type="checkbox"/> Aesthetics | <input type="checkbox"/> Greenhouse Gas Emissions | <input type="checkbox"/> Population & Housing |
| <input type="checkbox"/> Agriculture & Forestry Resources | <input type="checkbox"/> Hazards & Hazardous Materials | <input type="checkbox"/> Public Services |

| <input type="checkbox"/> Biological Resources | <input type="checkbox"/> Land Use & Planning | <input type="checkbox"/> Transportation & Traffic |
| <input type="checkbox"/> Cultural Resources | <input type="checkbox"/> Mineral Resources | <input type="checkbox"/> Utilities & Service Systems |
| <input type="checkbox"/> Geology and Soils | <input type="checkbox"/> Noise | <input type="checkbox"/> Mandatory Findings of Significance |

ENVIRONMENTAL DETERMINATION:

- On the basis of this initial study, the City of Redlands, as Lead Agency, finds that the proposed structure(s) to be demolished are not a Historical Resource and has no historical significance, as defined in Section 15064.5 of the California Environmental Quality Act Guidelines, and Chapter 15.44 of the Redlands Municipal Code. Consequently, the demolition of the structure(s) is considered to be ministerial and exempt from the preparation of a Negative Declaration or Environmental Impact Report, pursuant to Section 15301 of the CEQA Guidelines, and the City’s Municipal Code. Further, this initial study has been prepared in accordance with Section 15.44.060 of the Redlands Municipal Code which requires an initial study be prepared for all demolition permit applications involving structures over fifty (50) years old.

Jazmin Serrato, Junior Planner
 City of Redlands
 June 19, 2023

EVALUATION OF ENVIRONMENTAL IMPACTS:

- 1) A brief explanation is required for all determinations, except "No Impact" determinations that are adequately supported by the information sources a lead agency cites in the parentheses following each question. A "No Impact" determination is adequately supported if the referenced information sources show that the impact simply does not apply to projects like the one involved (e.g. the project falls outside a fault rupture zone). A "No Impact" determination should be explained where it is based on project-specific factors as well as general standards (e.g., the project will not expose sensitive receptors to pollutants, based on a project-specific screening analysis).
- 2) All determinations and discussion must take account of the whole action involved, including off-site as well as on-site, cumulative as well as project-level, indirect as well as direct, and construction as well as operational impacts.
- 3) Once the lead agency has determined that a particular physical impact may occur, then the checklist answers must indicate whether the impact is potentially significant, less than significant with mitigation, or less than significant. "Potentially Significant Impact" is appropriate if there is substantial evidence that an effect may be potentially significant. If there are one or more "Potentially Significant Impact" entries in any section of this Initial Study, then an Environmental Impact Report (EIR) must be prepared to fully analyze the identified issue(s).
- 4) "Negative Declaration: Less Than Significant With Mitigation Incorporated" applies where the incorporation of mitigation measures has reduced an effect from "Potentially Significant Impact" to a "Less than Significant Impact." The lead agency must describe the mitigation measures, and briefly explain how they reduce the effect to a less than significant level (mitigation measures from Section XVII, "Earlier Analyses," may be cross-referenced).
- 5) Earlier analyses may be used where, pursuant to the tiering, program EIR, or other CEQA process, an effect has been adequately analyzed in an earlier EIR or negative declaration (CEQA Guidelines Section 15063(c)(3)(D)). In such cases, a brief discussion should identify the following:
 - a) Earlier Analyses Used. Identify and state where they are available for review.
 - b) Impacts Adequately Addressed. Identify which effects from the above checklist were within the scope of and adequately analyzed in an earlier document pursuant to applicable legal standards, and state whether such effects were addressed by mitigation measures based on the earlier analysis.
 - c) Mitigation Measures. For any effects that are determined to be "Less than Significant with Mitigation Measures Incorporated," describe the mitigation measures which were incorporated or refined from the earlier document and the extent to which they address site-specific conditions for the project.
- 6) Lead agencies are encouraged to incorporate into the checklist any and all references to information sources for potential impacts (e.g., General Plan maps or exhibits, zoning ordinances, specific plans, etc.). Reference to a previously-prepared or outside document should, where appropriate, include a reference to the page or pages where the statement is substantiated.

- 7) Supporting Information Sources. A source list should be attached and other sources used or individuals contacted should be cited in the discussion. In this Initial Study, a References section is provided at the end of the document.
- 8) This is only a suggested form, and lead agencies are free to use different formats. However, lead agencies should normally address the questions from this checklist that are relevant to a project's environmental effects in whatever format is selected.
- 9) The explanation of each issue should identify:
 - a) The significance criteria or threshold, if any, used to evaluate each question; and,
 - b) The mitigation measure identified, if any, to reduce the impact to less than significance.

Issues:	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
I. AESTHETICS. Would the project:				
a) Have a substantial adverse effect on a scenic vista?	—	—	—	<u>✓</u>
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	—	—	—	<u>✓</u>
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	—	—	—	<u>✓</u>
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area?	—	—	—	<u>✓</u>

Aesthetics – Discussion

- a) *No Impact.* The proposed project will not have an adverse effect on a scenic vista or scenic highway. The proposed project is the demolition of a detached accessory structure which is located within the Early Redlands Historic and Scenic District, designated by the City of Redlands. The demolition of the accessory structure will not impact the visual character of the subject property and will be replaced by an accessory dwelling unit that will aesthetically contribute to the subject property from the public right-of-way view.
- b) *No Impact.* The proposed project will not damage scenic resources, including trees, rock outcroppings, or historic buildings within a state scenic highway. The property is not located along a state scenic highway and the building itself is not historic. The structure to be demolished will be an accessory structure, and there is no known rock outcropping on-site.
- c) *No Impact.* The proposed project will not degrade the existing visual character or affect the quality of the site and its surroundings. The demolition of the accessory structure would not create a change in the appearance of the surroundings because the only structure to be demolished will be the accessory structure and the existing characteristics of the site will remain. Overall, the demolition of the structure would not substantially degrade the existing visual character of the area.
- d) *No Impact.* The accessory structure is detached from the main residence and the applicant proposes to construct an accessory dwelling unit. The proposed project would not create a new source of substantial light or glare, which would adversely affect day or nighttime views in the area.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>II. AGRICULTURE & FOREST RESOURCES. In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. In determining whether impacts to forest resources, including timberland, are significant environmental effects, lead agencies may refer to information compiled by the California Department of Forestry & Fire Protection regarding the state's inventory of forest land, including the Forest and Range Assessment Project and the Forest Legacy Assessment project; and forest carbon measurement methodology provided in Forest Protocols adopted by the California Air Resources Board. Would the project:</p>				
<p>a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?</p>	---	---	---	<u>✓</u>
<p>b) Conflict with existing zoning for agricultural use, or a Williamson Act contract.</p>	---	---	---	<u>✓</u>
<p>c) Conflict with existing zoning for, or cause rezoning of, forest land (as defined in Public Resources Code section 12220(g), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production (as defined by Government Code section 51104(g)?</p>	---	---	---	<u>✓</u>
<p>d) Result in the loss of forest land or conversion of forest land to non-forest use?</p>	---	---	---	<u>✓</u>
<p>e) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use or conversion of forest land to non-forest use?</p>	---	---	---	<u>✓</u>

Agriculture & Forest Resources – Discussion

- a) *No Impact.* The project includes the demolition of a 600 square-foot accessory structure. The property does not include any Prime Farmland; therefore, the demolition will not convert Prime Farmland or Unique Farmland of Statewide Importance to a non-agricultural use.
- b) *No Impact.* The demolition will not conflict with existing zoning for agricultural use, or a Williamson Act contract. The property is within the Administrative Professional Office (A-P) District. The demolition does not include any proposal to change the zoning district nor is the property under the Williamson Act contract.
- c) *No Impact.* This demolition is located in an area that is zoned for the development of administrative professional offices, but residential development is also allowed by the underlying zoning district. The property does not contain any forest land (as defined in Public Resources Code section 12220(g)), timberland (as defined by Public Resources Code section 4526), or timberland zoned Timberland Production. As such, removal of the structures on the property will not create an impact on forest land or timberland.
- d) *No Impact.* The demolition will not result in the loss of forest land or conversion of forest land to non-forest use, as the property does not contain any forest land or propose the conversion of any forest land to non-forest use.
- e) *No Impact.* The detached garage is located at the rear yard of the existing single-family residence adjacent to the northerly side yard. The 1909 Sanborn maps indicate that the property was surrounded by residential homes within the vicinity of the subject property. Since that time, the remaining vacant parcels have been developed with residential dwellings and a few residences have since been converted into administrative and professional offices. There are currently no agriculture uses that exist onsite. Therefore, no impacts will occur related to agriculture or forest resources.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
III. AIR QUALITY.				
Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:				
a) Conflict with or obstruct implementation of the applicable air quality plan?	—	—	—	<u>✓</u>
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	—	—	—	<u>✓</u>
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is nonattainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	—	—	—	<u>✓</u>
d) Expose sensitive receptors to substantial pollutant concentrations?	—	—	—	<u>✓</u>
e) Create objectionable odors affecting a substantial number of people?	—	—	—	<u>✓</u>

Air Quality – Discussion

- a) *No Impact.* The proposed demolition will not conflict with or obstruct implementation of the applicable air quality plan. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures.
- b) *No Impact.* The proposed demolition will not violate any air quality standard or contribute substantially to an existing or projected air quality violation.
- c) *No Impact.* The proposed demolition will not result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard.
- d) *No Impact.* The proposed demolition will not expose sensitive receptors to substantial pollutant concentrations. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures.
- e) *No Impact.* The proposed demolition will not create objectionable odors affecting a substantial number of people. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
IV. BIOLOGICAL RESOURCES.				
Would the project:				
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish & Wildlife or U.S. Fish & Wildlife Service?	—	—	—	<u>✓</u>
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations, or by the California Department of Fish & Wildlife or U.S. Fish and Wildlife Service? – Since Kangaroo rats are endangered in Redlands how can we determine they are not on this specific site? I checked the CA Dept of Fish and Wildlife Service map online and they only indicate that Kangaroo Rats are endangered in the general Redlands area.	—	—	—	<u>✓</u>
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	—	—	—	<u>✓</u>
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	—	—	—	<u>✓</u>
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	—	—	—	<u>✓</u>
f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	—	—	—	<u>✓</u>

Biological Resources – Discussion

- a) *No Impact.* The property is located within an urbanized area and the project scope is limited to the demolition of the existing 600 square-foot accessory structure on a developed residential

parcel. This demolition will not have a substantial adverse effect, either directly or through habitat modifications. All work completed will be required to adhere to all local, State, and Federal laws.

- b) *No Impact.* There are no riparian habitats or other sensitive natural communities within the project area and no disturbance beyond the limits of the subject property is proposed.
- c) *No Impact.* The proposed project will not have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means. No protected wetlands exist within the subject property.
- d) *No Impact.* The project includes the demolition of a detached accessory structure. The existing site conditions will remain the same. The proposed project will not interfere substantially with the movement of any native residential or migratory fish or wildlife species or with established native resident or migratory wildlife corridors or impede the use of native wildlife nursery sites.
- e) *No Impact.* The proposed project will not conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance. Any removal of the trees is required to be done in compliance with all local, State, and Federal laws.
- f) *No Impact.* The proposed project will not conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
V. CULTURAL RESOURCES. Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in § 15064.5?	—	—	—	<u>✓</u>
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to § 15064.5?	—	—	—	<u>✓</u>
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	—	—	—	<u>✓</u>
d) Disturb any human remains, including those interred outside of formal cemeteries?	—	—	—	<u>✓</u>

Cultural Resources – Discussion

- a) *No Impact.* The historical significance of the project has been reviewed pursuant to the findings of Public Resources Code Section 5024.1, Title 14 CCR, Section 4852) which are as follow.
 - A. *Associated with events that have made a significant contribution to the broad patterns of California History and cultural heritage.*

The original building permits for the construction of the garage or conversion of a portion of the structure into a studio space were not found in the city's building permit history. Therefore, the exact date of construction for the accessory structure could not be determined, but the accessory structure is indeed over fifty (50) years of age. Historic aerial images show the presence of the accessory structure on the property in the 1938 aerial image and Sanborn maps from 1909 also show the building footprint of the detached accessory structure. A search of local newspapers and permits did not associate this property with events that have made a significant contribution to the broad pattern of California History and cultural heritage given that the structure was primarily used as a studio room and a garage for vehicle storage.

B. Is associated with the lives of persons important in our past.

Staff conducted research at the A.K. Smiley Library Heritage Room and through newspaper.com. The City's Directories begin to list the subject property in 1910. The table (shown below) lists the residents associated with the primary dwelling based on the information obtained from the City Directories located at the A.K. Smiley Library's Heritage Room and the 1976 Historical Inventory Sheet.

Directory Year	Name(s)	Occupation	Additional Information
1910	Leonard, Frank A. Leonard, Fannie E.	Redlands City Attorney & Superior Court Judge of San Bernardino County Occupation not listed.	Occupation not listed in directories but found through newspapers.
1919	Cortner, George P. Cortner, Nellie H.	University of Redlands Business Manager Occupation not listed.	NA
1921	Luge, George H. Luge, Maude S.	Occupations not listed.	NA
1923, 1924, & 1927	Clay, Patten Clay, Minnie C.	Rancher Wife	NA
1929	Sewell, Josph H. Sewell, Louisa R.	Owner Wife	NA
1931	Sewell, Louisa R. Mrs. Allen, Edith C. Mrs.	Widow Widow	NA
1933	Sewell, Louisa R. Mrs. Marshall, Loren Marshall, Esther Mrs. Moslander, Harry E. Moslander, Eleanor Mrs.	Owner Occupation not listed. Wife Gas station employee Wife	First evidence of multi-tenant living.
1936	Gibson, Rachel R. Mrs. Rowe, John M. Sacksteder, M A	Owner Chauffer Salesman	NA

1939	Gibson, Rachel R. Mrs. Sacksteder, M. A. Cooper, Robert L. Cooper, Blanche Mrs. Beck, Ovid L. Beck, Ada Mrs. Young, Wilburn	Owner Salesman Manager Wife Miner Wife Salesman	NA
1941	Gibson, Rachel R. Mrs. Sacksteder, M. A. Cooper, Robert L. McShane, Jeff D. McShane, Charlette M. McShane, Frank M. Rossiter, Harry	Owner Salesman Manager Occupation not listed. Wife to Jeff McShane Occupation not listed. Occupation not listed.	NA
1947	Gibson, Rachel R. Moon, Margaret Lay, Floyd S. Lay, Virginia Barber, Chase Baily, Alma Miss Easley, Julia Mrs.	Owner Registered Nurse Grave Foreman Wife Clerk Writer of SS literature Teacher	NA
1950	Moon, Margaret Lay, Floyd S. Lay, Virginia Hill, C. G. Sussman, Annie O'Leary, Pat	Registered Nurse Grave Foreman Wife Telephone company Nurse Nurse	NA
1952	Shirlin, Frank A. Shirlin, Rachael Maize, Frank Mikkelson, Wilhelmina Fitzsimmons, Frank Ferris, Jeanne	Retired Wife Retired Practical Nurse Employee at Quality Dairy Clerk at Woolsworth	NA
1954	Saunders, Harvey Saunders, Louisa Gorder, Kent Gorder, Betty	Employee at Norton Air Force Base San Bernardino Wife Employee at Bowling Alley Wife	NA
1957	Taylor, Ronald Hobkirk, Wesley Hobkirk, Mrs. De Mirjyn, Barry John De Mirjyn, Ellen Merrie	Occupation not listed. Occupation not listed. Wife Employee at Sears Roebuck Wife	NA

1961	Turner, Mignonette Brooke, Michael Schmoldt, Irving R. Woodson, Tennessee Woodson, Gianetta	Teacher Student Gardener Retired Sister of Tennessee Woodson	NA
1965	Turner, Mignonette Everage, John V.	Teacher Busboy at Topper's Restaurant	NA
1967	Turner, Mignonette Everage, John V.	Teacher Busboy at Topper's Restaurant	NA
1975	Campbell, Edward M. Campbell, Merry M.	Occupations not listed.	Beginning of SB County Assessor's Listing.
1977 - 2002	Roberts, Karl E. Roberts, Evelyn L.	Occupations not listed.	NA
2002-2008	Ballard, James M. Ballard, Natalya Y.	Occupations not listed.	NA
2008-2009	LaSalle Bank National Assn.	NA	NA
2009-2011	McLean Investment Co. LLC	NA	NA
2011-2018	Allen, Ryan E. Allen, Dawn M.	Occupations not listed.	NA
2018-2022	Renke, Steven M. Cabrera, Irena B.	Occupations not listed.	NA
2022 - Present	Jacobson, David Jacobson, Nancy	Occupations not listed.	NA

No information was found for most of the residents from 451 Cajon Street, but newspapers indicate that a few residents were involved members of their community. For example, Mr. Moslander worked at F. Arthur Cortner funeral chapel, was a member of the Masonic Lodge in Nogales, the Redlands Elk Lodge, the Redlands American Legion Post 106, and was a past president of the Redlands Shrine Club. His wife, Eleanor Moslander, was a member of the Temple Baptist Businesswoman's Circle of the Women's Missionary Union and treasurer of the Orange Blossom Club. 451 Cajon Street was one of their first residences in Redlands, but most of the newspapers cite their residence at 306 La Palma Street. Other residents such as Loren Marshall and Pat O'Leary were alumni of the University of Redlands. Additionally, newspapers indicate Wilburn Young was part of the Redlands Camera Club, Wilhelmina Mikelson was a member of Women of the First Methodist Church, and Mignonette Turner was an involved teacher, organist, and pianist for the Sacred Heart Church.

Several newspapers from the Redlands Daily Facts dated between the years 1901 to 1974 indicate Frank A. Leonard was a Superior Court Judge for San Bernardino County and Redlands City Attorney. He resided at 451 Cajon Street upon arriving to Redlands, but later resided at 355 Cajon Street which was demolished in 1961. Additionally, several newspapers mention the large financial contributions made by George P. Cortner to the University of Redlands and a newspaper from 1914 indicate he was appointed City Mayor from 1914 to 1916. City directories indicate he

resided at the subject property in 1919 as the sole owner of the main residence, and therefore is not associated with the subject accessory structure. For many of the residents, 451 Cajon Street served as a temporary home and the change of residents listed for each directory is evidence of the turnover rate.

Overall, the individuals are not associated with the accessory structure itself, but rather the main dwelling. The proposed structure to be demolished will be the detached accessory structure. The structure is not associated with the lives of persons important in our past since individuals did not live within the premises of this structure.

C. Embodies the distinctive characteristics of a type, period, region, or method of construction, or represents the work of an important creative individual, or possesses high artistic values.

The detached accessory structure, approximately 600 square-feet, is located at the rear yard of the existing single-family residence adjacent to the north side yard of the subject property. The subject structure has a simplistic design consisting of a shed roof with corrugated metal roofing and white trim along the frame of the house and along the west elevation window and doors. The exterior primarily consists of oriented strand board panels with a small section consisting of horizontal wood siding in the west elevation containing terracotta planters arranged in a three-by-three fashion. The detached structure is visible from the public right-of-way and the condition of the structure has changed over the years. There is a Minor Certificate of Appropriateness on file from 2006 for the replacement of a sliding garage door to the sectional roll-up door that is now present in the west elevation. Additionally, the exterior of the structure once consisted of a blue horizontal wood siding but has since been replaced or stripped to oriented strand board panels. Overall, the garage has a simple design and does not represent the work of an important creative individual or possess high artistic values or have distinctive characteristics.

D. Has yielded, or may be likely to yield, information in prehistory or history.

The accessory structure has not yielded any information regarding prehistory or history. Based on the review of the criteria above as it relates to the demolition of the structure, the structure is not historically significant, and approval of the proposed project will not cause a substantial adverse change in the significance of a historical resource as defined in §15064.5.

- b) *No Impact.* The structure has not yielded any information regarding prehistory or history. The building will not likely yield information about the past. Therefore, approval of the proposed project will not cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5.
- c) *No Impact.* The proposed project will not directly or indirectly destroy a unique paleontological resource or site or unique geologic feature as ground disturbance is not proposed.
- d) *No Impact.* The proposed project will not disturb any human remains, including those interred outside of formal cemeteries.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------------	--	---------------------------------------	-----------

VI. GEOLOGY & SOILS.

Would the project:

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury or death involving:				
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology, Special Publication 42.	—	—	—	<u>✓</u>
ii) Strong seismic ground shaking?	—	—	—	<u>✓</u>
iii) Seismic-related ground failure, including liquefaction?	—	—	—	<u>✓</u>
iv) Landslides?	—	—	—	<u>✓</u>
b) Result in substantial soil erosion or the loss of topsoil?	—	—	—	<u>✓</u>
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	—	—	—	<u>✓</u>
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	—	—	—	<u>✓</u>
e) Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater?	—	—	—	<u>✓</u>

Geology & Soils – Discussion

- a) *No Impact.* The proposed project will not expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving: Rupture of a known earthquake fault; Strong seismic ground shaking; Seismic-related ground failure, including liquefaction; and landslides.
- b) *No Impact.* Disturbance within the project site will be limited to the immediate location surrounding the accessory structure and the site is not being cleared or graded as a result of this project. The proposed project will not result in substantial soil erosion or the loss of topsoil.
- c) *No Impact.* Based on General Plan 2035 EIR Figures 3.6-1-4, the site is not located on a

geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.

- d) *No Impact.* The proposed project is not located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994) and will not create substantial risks to life or property.
- e) *No Impact.* The proposed project does not have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems where sewers are not available for the disposal of wastewater. The scope of the project involves demolishing an existing accessory structure on-site and does not include the need for septic tanks.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VII. GREENHOUSE GAS EMISSIONS. Would the project:				
a) Generate gas emissions, either directly or indirectly, that may have a significant impact on the environment?	—	—	—	<u>✓</u>
b) Conflict with an applicable plan, policy or regulation adopted for the purposes of reducing the emissions of greenhouse gases?	—	—	—	<u>✓</u>

Greenhouse Gas Emissions – Discussion

- a) *No Impact.* The proposed project will not generate gas emissions, either directly or indirectly, that may have a significant impact on the environment.
- b) *No Impact.* The proposed project will not conflict with an applicable plan, policy or regulation adopted for the purpose of reducing the emissions of greenhouse gases.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VIII. HAZARDS & HAZARDOUS MATERIALS. Would the project:				
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	—	—	—	<u>✓</u>
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?	—	—	—	<u>✓</u>

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?	—	—	—	✓
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	—	—	—	✓
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	—	—	—	✓
f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?	—	—	—	✓
g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	—	—	—	✓
h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	—	—	—	✓

Hazards & Hazardous Materials – Discussion

- a) *No Impact.* The proposed project will not create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials. Prior to the issuance of a demolition permit, a demolition application shall be submitted to the City of Redlands Building and Safety Division for approval per the regulations set forth in the California Building Code. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures and the abatement of hazardous materials.
- b) *No Impact.* The proposed project will not create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment. Additionally, the demolition process shall comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures and the abatement of hazardous materials.

- c) *No Impact.* The proposed project will not emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school. The nearest public school is Kingsbury Elementary School which is approximately 0.3 miles from the subject property. The demolition process will be required to comply with Chapter 15.44 of the Redlands Municipal Code which regulates the demolition of structures and the abatement of hazardous materials.
- d) *No Impact.* The proposed project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5. This was verified through the Envirostor and GeoTracker database, as a result, would not create a significant hazard to the public or the environment.
- e, f) *No Impact.* The proposed project is the demolition of an accessory structure which is not located within the immediate vicinity of a public or private airstrip. The project is located approximately 4.3 miles northeast of the Redlands Municipal Airport and approximately 9 miles northwest from the San Bernardino International Airport. Therefore, the project would not result in a safety hazard for people residing or working in the project area. The project is not located in an airport land use plan.
- g) *No Impact.* The proposed project is the demolition of a detached accessory structure, and it will not impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan.
- h) *No Impact.* The proposed project will not expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
IX. HYDROLOGY & WATER QUALITY.				
Would the project:				
a) Violate any water quality standards or waste discharge requirements?	—	—	—	<u>✓</u>
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	—	—	—	<u>✓</u>
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or	—	—	—	<u>✓</u>

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
river, in a manner which would result in substantial erosion or siltation on- or off-site?				
d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?	—	—	—	<u>✓</u>
e) Create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff?	—	—	—	<u>✓</u>
f) Otherwise substantially degrade water quality?	—	—	—	<u>✓</u>
g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	—	—	—	<u>✓</u>
h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	—	—	—	<u>✓</u>
i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	—	—	—	<u>✓</u>
j) Inundation by seiche, tsunami, or mudflow?	—	—	—	<u>✓</u>

Hydrology & Water Quality – Discussion

- a) *No Impact.* The proposed project is the demolition of an existing accessory structure. No discharge will be created due to the removal of the structures onsite. The proposed project will not violate any water quality standards or waste discharge requirements.
- b) *No Impact.* The project consists of demolishing an existing detached accessory structure and is not expected to utilize groundwater supplies. The proposed project will not substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level.
- c) *No Impact.* The project is the demolition of a detached accessory structure. The proposed project will not substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite.

- d-f) *No Impact.* The proposed project is a demolition and will remove impervious surface area from the site. This should result in a reduction in the amount of runoff from the site. The proposed project will not create or contribute runoff water, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.
- g-h) *No Impact.* The proposed project is the demolition of an accessory structure. The proposed project will not place structures within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map. The proposed project will not place within a 100-year flood hazard area structures that would impede or redirect flood flows.
- i) *No Impact.* The proposed project will not expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam.
- j) *No Impact.* The project is not located in an area subject to inundation by seiche, tsunami, or mudflow.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
X. LAND USE & PLANNING.				
Would the project:				
a) Physically divide an established community?	—	—	—	<u>✓</u>
b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?	—	—	—	<u>✓</u>
c) Conflict with any applicable habitat conservation plan or natural community conservation plan?	—	—	—	<u>✓</u>

Land Use & Planning – Discussion

- a) *No Impact.* The proposed project will remove an existing structure from the site but will not change the property boundaries or zoning and will not create any new division that would physically divide an established neighborhood or community.
- b) *No Impact.* The proposed project will not conflict with the zoning ordinance or general plan or other applicable land use plan as it only consists of the demolition and removal of a small structure.
- a) *No Impact.* The proposed demolition of a garage does not conflict with any conservation or

natural community plan as it is located in an urban area.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XI. MINERAL RESOURCES. Would the project:				
a) Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	—	—	—	<u>✓</u>
b) Result in the loss of availability of a locally-important mineral resource recovery site delineated on a local general plan, specific plan or other land use plan?	—	—	—	<u>✓</u>

Mineral Resources – Discussion

- a) *No Impact.* The removal of the structures on-site will not change the availability of mineral resources and the project is not located near a mineral resource recovery area. No impact will occur related to these issues.
- b) *No Impact.* The removal of the structures will not result in the loss of availability of a locally important mineral source as delineated on a local general plan, or specific plan.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XII. NOISE. Would the project:				
a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?	—	—	—	<u>✓</u>
b) Exposure of persons to or generation of excessive ground borne vibration or ground borne noise levels?	—	—	—	<u>✓</u>
c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	—	—	—	<u>✓</u>
d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	—	—	—	<u>✓</u>

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?	—	—	—	<u>✓</u>
f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?	—	—	—	<u>✓</u>

Noise – Discussion

- a, b) *No Impact.* The proposed demolition of an accessory structure will not result in exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies. The proposed project will not result in exposure of persons to, or generation of excessive ground borne vibration or ground borne noise levels.
- c, d) *No Impact.* The proposed demolition of an accessory structure will not result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project. Demolition activities associated with the proposed project may temporarily increase noise levels in the immediate vicinity; however, noise levels are not anticipated to be substantial. All demolition activities associated with the project are required to comply with the City’s Noise Ordinance and therefore, no impact would occur.
- e) *No Impact.* The project is not located within two miles of a public airport and is not located within an airport land use plan. The project is located approximately 4.3 miles northeast of the Redlands Municipal Airport and approximately 9 miles northwest from the San Bernardino International Airport. The proposed project is a demolition of a detached accessory structure. This demolition would not expose people residing or working in the project area to excessive noise levels within the vicinity of an airport.
- f) *No Impact.* The proposed project is not within the vicinity of a private airstrip. The proposed project is the demolition of a small accessory structure. This demolition would not expose people residing or working in the project area to excessive noise levels.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------	--	------------------------------	-----------

XIII. POPULATION & HOUSING.
Would the project:

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of road or other infrastructure)?	—	—	—	<u>✓</u>
b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	—	—	—	<u>✓</u>
c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	—	—	—	<u>✓</u>

Population & Housing – Discussion

- a) *No Impact.* The proposed project is the demolition of an accessory structure. No extension of infrastructure is proposed by this project and no population growth is anticipated.
- b) *No Impact.* The proposed project is the demolition of an accessory structure. The demolition would not result in the displacement of substantial amounts of existing housing or require additional housing to be constructed elsewhere.
- c) *No Impact.* The proposed project will not result in the displacement of a substantial number of people that would require the construction of a replacement housing as the subject structure is a garage and studio space.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------------	--	---------------------------------------	-----------

XIV. PUBLIC SERVICES.

Would the project:

- a) Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:

i) Fire protection?	—	—	—	<u>✓</u>
ii) Police protection?	—	—	—	<u>✓</u>

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
iii) Schools?	—	—	—	<u>✓</u>
iv) Parks?	—	—	—	<u>✓</u>
v) Other public facilities?	—	—	—	<u>✓</u>

Public Services – Discussion

- a) The proposed project is not expected to impact or result in a need for new or altered public services provided by the City of Redlands, the Redlands Unified School District, or other government agencies. Police and fire protection for the project site are provided by the City of Redlands. The proposed project will not result in the need for new or additional public facilities such as public libraries or meeting facilities. The project will not induce significant residential growth requiring additional school facilities, nor will it directly generate the need for new additional park land. In terms of cumulative effects, the proposed project would not create any public services or facilities issues beyond that anticipated in the General Plan EIR. Therefore, no impacts will occur related to these issues.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------------	--	---------------------------------------	-----------

XV. RECREATION.

Would the project:

a) Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	—	—	—	<u>✓</u>
b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which have an adverse physical effect on the environment?	—	—	—	<u>✓</u>

Recreation – Discussion

- a) *No Impact.* The proposed project is the demolition of an accessory structure. The removal of the structure on this site will not contribute to an increased demand for recreational facilities.
- b) *No Impact.* The project will not affect existing or planned recreational facilities, nor create a significant new demand for additional recreational facilities.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------	--	------------------------------	-----------

XVI. TRANSPORTATION & TRAFFIC.

Would the project:

a) Conflict with an applicable plan, ordinance or policy establishing measures of effectiveness for the performance of the circulation system, taking into account all modes of transportation including mass transit and non-motorized travel and relevant components of the circulation system, including but not limited to intersections, streets, highways and freeways, pedestrian and bicycle paths, and mass transit?	—	—	—	<u>✓</u>
c) Conflict with an applicable congestion management program, including, but not limited to level of service standards and travel demand measures, or other standards established by the county congestion management agency for designated roads or highways?	—	—	—	<u>✓</u>
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that result in substantial safety risks?	—	—	—	<u>✓</u>
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	—	—	—	<u>✓</u>
e) Result in inadequate emergency access?	—	—	—	<u>✓</u>
f) Conflict with adopted policies, plans, or programs regarding public transit, bicycle, or pedestrian facilities, or otherwise decrease the performance or safety of such facilities?	—	—	—	<u>✓</u>

Transportation & Traffic – Discussion

- a-f) *No Impact.* The proposed project is the demolition of an accessory structure. The removal of this structure would not create additional vehicle trips, or result in changes to vehicle circulation patterns, emergency access, and transit facilities. The demolition of the existing structure will not conflict with congestion on any major roads or highways or conflict with any applicable plan, ordinance or policy establishing measures of effectiveness for the performance of circulation systems.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------------	--	---------------------------------------	-----------

XVII. TRIBAL CULTURAL RESOURCES.

Would the project:

<p>a) Would the project cause a substantial adverse change in the significance of a tribal cultural resource, defined in Public Resources Code section 21074 as either a site, feature, place, cultural landscape that is geographically defined in terms of the size and scope of the landscape, sacred place, or object with cultural value to a California Native American tribe, and that is:</p> <p>i) Listed or eligible for listing in the California Register of Historical Resources, or in a local register of historical resources as defined in Public Resources Code section 5020.1(k); or,</p> <p>ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.</p>	—	—	—	<u>✓</u>
<p>ii) A resource determined by the lead agency, in its discretion and supported by substantial evidence, to be significant pursuant to criteria set forth in subdivision (c) of Public Resources Code Section 5024.1. In applying the criteria set forth in subdivision (c) of Public Resource Code Section 5024.1, the lead agency shall consider the significance of the resource to a California Native American tribe.</p>	—	—	—	<u>✓</u>

Tribal Cultural Resources – Discussion

- a) *No Impact.* The existing accessory structure is located at the rear portion of an existing single-family residence. The only structure to be demolished will be a detached accessory structure. No subsurface activities will occur as a result of the demolition of the structures on-site, beyond the removal of slabs and foundations. Grading of the site is not proposed in the scope of this demolition.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------------	--	---------------------------------------	-----------

XVIII. UTILITIES & SERVICE SYSTEMS.

Would the project:

<p>a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?</p>	—	—	—	<u>✓</u>
<p>b) Require or result in the construction of new water or wastewater treatment facilities or</p>	—	—	—	<u>✓</u>

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
expansion of existing facilities, the construction of which could cause significant environmental effects?				
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	—	—	—	<u>✓</u>
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?	—	—	—	<u>✓</u>
e) Result in a determination by the wastewater treatment provider, which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	—	—	—	<u>✓</u>
f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?	—	—	—	<u>✓</u>
g) Comply with federal, state, and local statutes and regulations related to solid waste?	—	—	—	<u>✓</u>

Utilities & Service Systems – Discussion

- a, b) *No Impact.* The proposed project is the demolition of a detached accessory structure and will not generate any wastewater or result in the construction of new water or wastewater facilities.
- c) *No Impact.* The proposed project will not require or result in the construction of new storm water drainage facilities or expansion of existing facilities which could cause significant environmental effects.
- d) *No Impact.* The demolition project will have no impact on water supplies available. The proposed project will have sufficient water supplies available to serve the needs of the demolition process.
- e) *No Impact.* The demolition project includes the removal of an accessory structure. As such, the removal of the structure would not result in a need for additional capacity by the wastewater treatment provider (City of Redlands). Any future development of the property will be required to be reviewed to confirm that adequate capacity exists for the desired development. Future connection to sewer, as needed for any future development could be provided.

f, g) *No Impact.* The proposed project will be served by a landfill with sufficient permitted capacity to accommodate the project’s solid waste disposal needs. The proposed project will comply with federal, state, and local statutes and regulations related to solid waste.

Issues:	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
---------	--------------------------------	--	------------------------------	-----------

XXI. MANDATORY FINDINGS OF SIGNIFICANCE.

a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?	—	—	—	<u>✓</u>
b) Does the project have impacts that are individually limited, but cumulatively considerable? (“Cumulatively considerable” means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)	—	—	—	<u>✓</u>
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	—	—	—	<u>✓</u>

Mandatory Findings of Significance – Discussion

- a) *No Impact.* The proposed project will not have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number, or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory.
- b) *No Impact.* The proposed project will not have impacts that are individually limited, but cumulatively considerable.
- c) *No Impact.* The proposed project will not have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly.

ATTACHMENT "E"

Resolution No. 2023-14 with Exhibit A (Conditions of Approval)

RESOLUTION NO. 2023-14

A RESOLUTION OF THE HISTORIC AND SCENIC PRESERVATION COMMISSION OF THE CITY OF REDLANDS APPROVING DEMOLITION NO. 385, TO DEMOLISH A 600 SQUARE-FOOT DETACHED ACCESSORY STRUCTURE OVER 50 YEARS OF AGE, LOCATED AT 451 CAJON STREET (APN: 0173-051-02-0000).

WHEREAS, the applicant, David Jacobson, has submitted an application for Demolition No. 385 to demolish an approximately 600 square-foot detached accessory structure located at 451 Cajon Street (APN: 0173-051-02-0000) within the Administrative & Professional Office (A-P) District; and

WHEREAS, notice of this Historic and Scenic Preservation Commission public hearing was provided in accordance with Redlands Municipal Code Section 15.44; and

WHEREAS, on July 6, 2023, the Historic and Scenic Preservation Commission held a public hearing and considered the staff report, oral report, the testimony and the written evidence submitted by and on behalf of the applicant and by members of the public; and

WHEREAS, Public Resources Code Section 15301 (Existing Facilities) provides for exemption the California Environmental Quality Act, and the project qualifies for this exemption; and

WHEREAS, following the public hearing for the Demolition, the Historic and Scenic Preservation Commission determined that the structure does not have historical significance and is exempt from the preparation of a negative declaration or environmental impact report under the California Environmental Quality Act.

NOW, THEREFORE, BE IT RESOLVED by the Historic and Scenic Preservation Commission of the City of Redlands as follows:

Section 1. The proposed project is exempt from the California Environmental Quality Act per Section 15301(I) (Existing Facilities), and there is no substantial evidence of any potentially significant impacts.

Section 2. The proposed demolition is hereby approved subject to the conditions of approval contained in Exhibit A attached to this Resolution.

Section 3. This Resolution shall become effective upon adoption and will be subject to a ten-day appeal period.

ADOPTED, SIGNED AND APPROVED this 6th day of July 2023.

Kurt Heidelberg, Historic and Scenic
Preservation Commission Chair

ATTEST:

Linda McCasland, Secretary

I, Linda McCasland, Secretary to the Historic and Scenic Preservation Commission of the City of Redlands, hereby certify that the foregoing resolution was duly adopted by the Historic and Scenic Preservation Commission at a regular meeting thereof held on the 6th day of July 2023.

AYES:

NOES:

ABSENT:

ABSTAINED:

Linda McCasland, Historic and
Scenic Preservation Commission
Secretary

EXHIBIT A
CONDITIONS OF APPROVAL
DEMOLITION NO. 385

1. This approval is to demolish an approximately 600 square-foot detached accessory structure over 50 years of age located at 451 Cajon Street (APN: 0173-051-02-0000) within the Administrative & Professional Office (A-P) District.
2. Prior to demolition, a building permit shall be obtained from the Development Services Department.
3. The issuance of any permits shall comply with all provisions of the Redlands Municipal Code, including Section 15.44 which regulates the demolition of structures.
4. Unless demolition has commenced pursuant to a building permit, this application shall expire eighteen (18) months from the approval date.
5. All demolition activities shall be limited to the hours from 7:00 a.m. to 6:00 p.m., Monday through Saturday and prohibited on Sundays and Federal Holidays.
6. The applicant for this permit, and its successors and assigns, shall defend, indemnify and hold harmless the City of Redlands, and its elected officials, officers, agents and employees, from and against any and all claims, actions, and proceedings to attack, set aside, void or annul the approval of this permit by the City, or brought against the City due to acts or omissions in any way connected to the applicant's project that is the subject of this permit. This indemnification shall include, but not be limited to, damages, fees, costs, liabilities, and expenses incurred in such actions or proceedings, including damages for the injury to property or persons, including death of a person, and any award of attorneys' fees. In the event any such action is commenced to attack, set aside, void or annul all, or any, provisions of this permit, or is commenced for any other reason against the City for acts or omissions relating to the applicant's project, within fourteen (14) City business days of the same, the applicant shall file with the City a performance bond or irrevocable letter of credit (together, the "Security") in a form and in an amount satisfactory to the City, to ensure applicant's performance of its defense and indemnity obligations under this condition. The failure of the applicant to provide the Security shall be deemed an express acknowledgement and agreement by the applicant that the City shall have the authority and right, without objection by the applicant, to revoke all entitlements granted for the project pursuant to this permit. The City shall have no liability to the applicant for the exercise of City's right to revoke this permit.
