### 2011-12 Funding Plan Highlights:

In addition to the annual operating appropriations, the major uses of Water Service Fund (501) dollars are for capital projects, debt service, and contributions to reserves. The substantial use of funds for capital projects in the Water Project Fund (503) reflects meeting capital requirements identified in the Water Capital Improvement Program. The Debt Service Fund (506) reflects the full principal and interest payments due under the 1999 Water COPs Refunding, the ADLP loan for the Texas Street Treatment Facility, and the semi-annual payments on the SRF loan for the Tate Water Treatment Plant. The Cemetery Fund (564) will make an interest payment on the 2003 loan from the Water Fund (501). In 2010-11, a loan in the amount of \$150,000 is budgeted to be made to the Public Facilities Fund (251) in order to cover its debt service obligation.

### 2011-12 Funding Plan Highlights:

Fiscal Year 2009-10 was the first year the Nonpotable Water Fund (541) has accounted for activities completely independent from other funds. A one time transfer from Wastewater Service Fund (521) reserves was made to move funds intended for recycled water system use and funds from the Water Service Fund (501) to account for revenues received for nonpotable water sales. Both of these transfers were deposited into reserves. Annual appropriations are currently for maintenance and operation of the system.

### 2011-12 Funding Plan Highlights:

### Disaster Recovery

Current projects are grant funded which are estimated as fully expensed during the current fiscal year. This enables accurate balances to be carried forward for ongoing grants.

### General Debt Service

Cash balance is unrestricted with no legal requirements to be reserved for final year debt service payment on 2003 General Obligation Refunding Bonds. This fund also records the payment activity for the 2007 Pension Obligation Bonds.

### Redlands Public Improvement Corp.

This debt service fund accounts for annual principal and interest related to the 1993 Refunding of 1986/1987 Projects. This issue was refinanced in 2002-03 for a savings to be shared equally by the General Fund and Public Facilities Development Fund.

### Storm Drains

Estimated revenues are development impact fees to fund specific storm drain projects. Current appropriations are for a storm drain assessment and miscellaneous improvements. In 2010-11, a loan in the amount of \$100,000 is budgeted to be made to the Public Facilities Fund (251) in order to cover its debt service obligation.
