Chairwoman Dyer opened up the Public Hearing.

Mr. Pat Meyer, representative, gave a brief overview and presentation on the proposed project.

There was discussion from the Planning Commission.

Mr. Pete Dangermond (Speaker Sign-Up) gave a brief overview of the proposed project.

Ms. Susan Finsen (Speaker Sign-Up) confirmed her opposition of any development in Live Oak Canyon. Ms. Finsen stated the Environmental Impact Report (EIR) is outdated due to existing climate changes. Ms. Finsen said she is raising funds to purchase the property from the Mistretta family. Ms. Finsen expressed concern on the following:

- Existing Artifacts
- Destruction of flora and fauna
- Constructing homes in the canyon will destroy the canyon

Mr. Kelley (Speaker Sign-Up) commended the Redlands Conservancy, Mr. Meyer, and the Mistretta family on their efforts. Mr. Kelley stated he had seen the Geoglyph in the seventies. Mr. Kelly suggested staff conduct current biological studies on the project.

Ms. Amanda Frye (Speaker Sign-Up) expressed concern on traffic and safety. Ms. Frye stated there is a dedicated bridle path on the property and confirmed the Yucaipa Historical Museum has a display of the Geoglyph. Further she said the Socio Economic Cost Benefit Study was completed in the year 2006 prior to the recession. Ms. Frye expressed concern with the project's water use.

Ms. Joanne Lassalle, resident, inquired if the project could be approved without a guaranteed source of water.

Mr. Stephen Rogers (Speaker Sign-Up) said the stipulated judgements should have been acted on within two years. He indicated that the Conservancy is the middle man for the City to pay for the property to use as a park. Mr. Rogers stated the project is a clear violation of the California Environmental Quality Act (CEQA) and the cul-de-sac is

too long for fire access.

Mr. Meyer stated the projects mitigation measures require subsequent biological studies. The cul-de-sac connects with Freya Dr. and there is emergency access. The project was analyzed in the EIR's Alternative Section and was deemed to be the environmentally superior project.

The Planning Commission expressed concern and discussed the following:

- Dry sewers
- Basins, and Septic Systems
- Street improvements
- Geo Glyph
- Drought tolerant Landscaping, cut and fill
- Western Heights' future water guidelines and restrictions
- Specific recommendations from the Fire Department
